BACKGROUND:

Summary

On June 20, 2017 Agenda Item 3-43, the Board of Supervisors authorized the Clerk of the Board to advertise for the construction of the Slurry Seal Project at various locations in the 1st, 2nd and 3rd Supervisorial Districts.

The slurry seal treatments are provided as preventative maintenance to extend the life of the pavement and postpone more costly pavement rehabilitation. The slurry seal treatments seal small cracks, restore lost flexibility of the pavement surface and helps preserve underlying pavement structure. This project includes various roads located within the 1st, 2nd and 3rd Supervisorial Districts of the County of Riverside (County). The specific roads are listed in Attachment "1".

This project proposes Slurry Seal or Microsurfacing surface treatments based on the existing pavement conditions.

The Slurry Seal treatment consists of an application of a mixture of asphalt emulsion, aggregates, water and other additives over the existing asphalt pavement surface. This work includes road cleaning, crack repairs, application of slurry seal treatment, installation of new thermoplastic crosswalks, replacement of striping, pavement markings and raised pavement markers. All roads will be swept several times, at specified intervals, after the slurry has been applied.

The Microsurfacing treatment uses a Microsurfacing Emulsion that is "scrubbed" into the pavement with brushes; however, "chips" and slurry seal are not placed over this treatment.

During the advertisement period, one addendum was issued to all registered plan holders as a supplement to the plans and specifications. Bidders were required to acknowledge and take into account the issued addenda on their contractor's Bid in order to be considered for award. The addendum was issued to clarify and modify the approved contract documents. The addendum is attached and designated as Addendum No. 1.

The County Transportation Department (Transportation Department) recommends award of the following schedules of work in the Contract amount of $2,822,822:

Base Bid Schedule: Slurry Seal Project
Alternate Bid Schedule 1: Construction of Concrete Curb Ramps and Installation of Rumble Strip
Alternate Bid Schedule 2: Slurry Seal on Highway-74 within County Of Riverside Right of Way
Alternate Bid Schedule 3: Seal Treatment on Via Volcano

Alternate Bid Schedule 4: Seal Treatment within City of Temecula Right of Way
Alternate Bid Schedule 5: Slurry Seal on Highway-74 within City of Lake Elsinore Right of Way

Alternate Bid 1 – Construction of Concrete Curb Ramps and Installation of Rumble Strip.
The alternate bid is included in the contract for the construction of five concrete curb ramps and the installation of safety components such as ground-in rumble strips on Cajalco Road from La Sierra Avenue to El Sobrante Road along the centerline of the road to alert drivers when they stray from the lanes. The County maintenance crews are not equipped to perform these improvements and the project is too small to be bid as an individual project.

Alternate Bid 2 – Slurry Seal Treatment on Highway-74 within County of Riverside Right of Way.
On January 31, 2017 by minute item 3.22, the Board of Supervisors Adopted Resolution 2017-017, Notice of Intent to Accept Portions of Route 74 in the Meadowbrook and Good Hope Areas into the County Highway System, Adopted Resolution No. 2017-018, Notice of Intent to Accept Portions of Route 74 and Convey the Relinquished Road Right of Way to the City of Lake Elsinore, Adopted Resolution No. 2017-019, Consenting to the Relinquishment of a Portion of Route 74 in the Meadowbrook and Good Hope Areas and Joint Relinquishment of Adjoining Portions of Route 74 to the County of Riverside and City of Lake Elsinore approved the Relinquishment Agreement between the County and California Department of Transportation (Caltrans).

The Relinquishment was approved by the California Transportation Commission (CTC) at its March 15-16, 2017 meeting. In order to preserve the pavement condition of what is now the County of Riverside's portion of Route 74, a slurry seal treatment is necessary. The Slurry Seal work on Route 74 is shown in the construction contract as an alternate bid schedule 2.

Alternate Bid 3 – Seal Treatment on Via Volcano.
The projects also propose to apply seal treatment to an approximate 1.5 miles segment of Via Volcano from Sierra Elena Road to Avocado Mesa Road. Via Volcano is a road that is currently dedicated and accepted for public use and is maintained by Tenaja Community Services District (TCSD); however, the County and TCSD agree that Via Volcano serves as a commuter route and is better suited to be a County maintained road. A service agreement between the County of Riverside and TCSD for Via Volcano seal improvements prior to intended acceptance into the County Maintained Road System was approved by the Board of Supervisors on June 13, 2017, Agenda item 3.15.

Alternate Bids 4 and 5 – Seal Treatment within Cities of Temecula and Lake Elsinore Right of Ways.
The project includes an approximate 700-foot segment of Murrieta Hot Springs in the City of Temecula; and an approximate 2-miles segment of Highway-74 in the City of Lake Elsinore. The Cities respectively concurred to the bid prices received for Alternates 4 and 5. The Reimbursement Agreements between the City of Temecula and County of Riverside, and between the City of Lake Elsinore and County of Riverside, appear as companion items to the award of this construction contract on this same Board agenda.

The contractor Pavement Coatings Co. is qualified to perform the work as outlined in the bid, has executed the contract, and has provided bonds and insurance documents, which meet the requirements of the Contract.

County Counsel has approved the Contract as to legal form.

Project Numbers: C6-0006 (District 1), C6-0007 (District 2), C6-0008 (District 3)

Impact on Residents and Businesses

The slurry seal treatment will extend the life of suitable roads and reduce the need for resurfacing, which is ten times more costly. These improvements will also improve public safety. The construction is anticipated to begin in the Fall of 2017 and will take approximately two and a half months to complete.

SUPPLEMENTAL:

Additional Fiscal Information

The contract is recommended to be awarded to Pavement Coatings Co. for the total amount of $2,822,822. The slurry seal contract is funded with Gas Tax/HUTA, Measure A/Western, City of Temecula, City of Lake Elsinore, and Tenaja Community Service District.

The proposed budget as shown on Attachment "A" includes contract award amount and other associated costs.

There are no General Funds used in this project.

Contract History and Price Reasonableness

Four bids were received on July 12, 2017, ranging from $2,822,822 to $2,982,999. The basis for the selection of a contractor is the lowest responsive and responsible bid.

The lowest responsible bid was submitted by Pavement Coatings Co. in the amount of $2,822,822 which is $502,693 (15%) under the Engineer's Estimate.

BLANKET ADDITIONAL INSURED (CONTRACTORS)

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

1. WHO IS AN INSURED – (Section II) is amended to include any person or organization that you agree in a "written contract requiring insurance" to include as an additional insured on this Coverage Part, but:
   a) Only with respect to liability for "bodily injury", "property damage" or "personal injury"; and
   b) If, and only to the extent that, the injury or damage is caused by acts or omissions of you or your subcontractor in the performance of "your work" to which the "written contract requiring insurance" applies. The person or organization does not qualify as an additional insured with respect to the independent acts or omissions of such person or organization.
2. The insurance provided to the additional insured by this endorsement is limited as follows:
   a) In the event that the Limits of Insurance of this Coverage Part shown in the Declarations exceed the limits of liability required by the "written contract requiring insurance", the insurance provided to the additional insured shall be limited to the limits of liability required by that "written contract requiring insurance". This endorsement shall not increase the limits of insurance described in Section III – Limits Of Insurance.
   b) The insurance provided to the additional insured does not apply to "bodily injury", "property damage" or "personal injury" arising out of the rendering of, or failure to render, any professional architectural, engineering or surveying services, including:
      i. The preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders or change orders, or the preparing, approving, or failing to prepare or approve, drawings and specifications; and
      ii. Supervisory, inspection, architectural or engineering activities.
   c) The insurance provided to the additional insured does not apply to "bodily injury" or "property damage" caused by "your work" and included in the "products-completed operations hazard" unless the "written contract requiring insurance" specifically requires you to provide such coverage for that additional insured, and then the insurance provided to the additional insured applies only to such "bodily injury" or "property damage" that occurs before the end of the period of time for which the "written contract requiring insurance" requires you to provide such coverage or the end of the policy period, whichever is earlier.
3. The insurance provided to the additional insured by this endorsement is excess over any valid and collectible "other insurance", whether primary, excess, contingent or on any other basis, that is available to the additional insured for a loss we cover under this endorsement. However, if the "written contract requiring insurance" specifically requires that this insurance apply on a primary basis or a primary and non-contributory basis, this insurance is primary to "other insurance" available to the additional insured which covers that person or organization as a named insured for such loss, and we will not share with that "other insurance". But the insurance provided to the additional insured by this endorsement still is excess over any valid and collectible "other insurance", whether primary, excess, contingent or on any other basis, that is available to the additional insured when that person or organization is an additional insured under such "other insurance".
4. As a condition of coverage provided to the additional insured by this endorsement:
   a) The additional insured must give us written notice as soon as practicable of an "occurrence" or an offense which may result in a claim. To the extent possible, such notice should include:

© 2005 The St. Paul Travelers Companies, Inc.

Elizabeth Christen

i. How, when and where the "occurrence" or offense took place;

ii. The names and addresses of any injured persons and witnesses; and

iii. The nature and location of any injury or damage arising out of the "occurrence" or offense.

b) If a claim is made or "suit" is brought against the additional insured, the additional insured must:

i. Immediately record the specifics of the claim or "suit" and the date received; and

ii. Notify us as soon as practicable.

The additional insured must see to it that we receive written notice of the claim or "suit" as soon as practicable.

c) The additional insured must immediately send us copies of all legal papers received in connection with the claim or "suit", cooperate with us in the investigation or settlement of the claim or defense against the "suit", and otherwise comply with all policy conditions.

d) The additional insured must tender the defense and indemnity of any claim or "suit" to any provider of "other insurance" which would cover the additional insured for a loss we cover under this endorsement. However, this condition does not affect whether the insurance provided to the additional insured by this endorsement is primary to "other insurance" available to the additional insured which covers that person or organization as a named insured as described in paragraph **3.** above.

5. The following definition is added to SECTION V. – DEFINITIONS:

"Written contract requiring insurance" means that part of any written contract or agreement under which you are required to include a person or organization as an additional insured on this Coverage Part, provided that the "bodily injury" and "property damage" occurs and the "personal injury" is caused by an offense committed:

a. After the signing and execution of the contract or agreement by you;

b. While that part of the contract or agreement is in effect; and

c. Before the end of the policy period.

BLANKET ADDITIONAL INSURED PRIMARY AND NON-CONTRIBUTORY WITH OTHER INSURANCE

This endorsement modifies insurance provided under the following:

BUSINESS AUTO COVERAGE FORM

PROVISIONS

1. The following is added to Paragraph **A.1.c., Who Is An Insured**, of **SECTION II - COVERED AUTOS LIABILITY COVERAGE**:

   Any person or organization who is required under a written contract or agreement between you and that person or organization, that is signed and executed by you before the "bodily injury" or "property damage" occurs and that is in effect during the policy period, to be named as an additional insured is an "insured" for Covered Autos Liability Coverage, but only for damages to which this insurance applies and only to the extent that person or organization qualifies as an "insured" under the Who Is An Insured provision contained in **SECTION II**.

2. The following is added to Paragraph **B.5., Other Insurance** of **SECTION IV BUSINESS AUTO CONDITIONS**:

   Regardless of the provisions of paragraph **a.** and paragraph **d.** of this part **5. Other Insurance,** this insurance is primary to and non-contributory with applicable other insurance under which an additional insured person or organization is the first named insured when the written contract or agreement between you and that person or organization, that is signed and executed by you before the "bodily injury" or "property damage" occurs and that is in effect during the policy period, requires this insurance to be primary and non-contributory.

If the company's assets exceed its liabilities by the amount of the bond, it is deemed sufficient (per Marsha Victor e-mail 2/20/09). The company is acceptable, with this financial verification, even though it is below the contract document's A/VIII rating requirement.

Per County Counsel advise, the County can not impose any other requirements such as a minimum Best's rating. In our bond review process, we still look at that rating to give us an idea of where the company is financially.
