This project is substantially funded with State only STIP funds. The Transportation Department has requested and received authorization from Caltrans to proceed with construction of the project. The extent and impact of the State's budget shortfalls on the STIP funding program have not been fully determined and it is possible that the shortfall could impact the funding for this project. However, the STIP funds for this project have a construction award deadline of April 2003. If we don't award the construction contract by the award deadline, the STIP funds will be removed from this project. Caltrans staff is also encouraging local agencies to continue working on projects to show the California Transportation Commission (CTC) that the projects are in an active state. Therefore, we recommend the Board proceed with advertising this needed project to improve Reche Canyon Road and Reche Vista Drive. If we receive any updates from Caltrans or CTC staff, we will advise the Board prior to award of the construction contract.
