

609

FROM: Information Technology Department

SUBMITTAL DATE: February 6, 2003

SUBJECT: Approval of County Technology Standards

**RECOMMENDED MOTION:** That the Board of Supervisors approve and adopt the attached County Technology Standards.

**BACKGROUND:** At the Board's direction, the Chief Information Officer formed the Department Technology Standards Committee (DTSC) five years ago. The DTSC votes on standards that are adopted by working groups, which like itself, is comprised of representation from every County department. Efforts continue to encourage migration towards these new standards and allow departments to realize a lower cost of ownership for their technology investments. Attached are the new countywide standards presented to the Board for approval and adoption.

BACKGROUND: (Continued)

Standards

Description

Updated Technology Hardware Standards

The Department Technology Standards Committee has approved the following Hardware Standards.

Desktops –Hewlett Packard/Compaq EVO line and Dell Computers Opti-Plex line.

Laptop/Notebooks –Toshiba Tecra Series, IBM ThinkPad series and Dell Computers Business Systems line.

Intel-based Servers - Hewlett Packard/Compaq Pro Liant series and Dell Computers server line.

Document Scanning /  
Document Management Standard

The Departmental Technology Standards Committee has approved FileNET as the software standard for document management, imaging and workflow solutions. FileNET's Panagon product offering is a customizable, scaleable and full featured product that meets both the needs of individual County departments and interdepartmental document management implementations.
