and Water Conservation District

2
3 RESOLUTION NO. F2003-33
4 APPROVING THE
5 PERRIS VALLEY CHANNEL LATERAL B STAGE 2

6 WHEREAS, on May 6, 2003, the Board adopted Resolution No. F2003-12
7 pursuant to Section 18 of the District Act giving notice of its intention to construct a project in
8 Zone 4, within the city of Moreno Valley, just north of the city of Perris, designated as the Perris
9 Valley Channel Lateral B Stage 2 and giving further notice that the project would be considered
10 at a public hearing on July 1, 2003; and

11 WHEREAS, notice of the public hearing was properly made by publication and
12 posting as required by law, and all persons desiring to be heard on the matter were given the
13 opportunity to appear and present testimony, both oral and written; and

14 WHEREAS, all requirements of the California Environmental Quality Act and the
15 District Rules to Implement the Act have been met and the General Manager-Chief Engineer of
16 the District has found that the project will not have a significant adverse effect upon the
17 environment and has completed a Mitigated Negative Declaration; now, therefore,

18 BE IT RESOLVED, DETERMINED AND ORDERED by the Board of
19 Supervisors of the Riverside County Flood Control and Water Conservation District in regular
20 session assembled on July 1, 2003 based upon the evidence and testimony presented on the
21 matter, both written and oral, that:

22 1. The project designated as Perris Valley Channel Lateral B Stage 2 is
23 approved and the District is hereby authorized to proceed with the project.

24 2. The project will not have a significant adverse effect upon the environment
25 and a Mitigated Negative Declaration is adopted.

ENGINEER'S STATEMENT

**Perris Valley Channel Lateral "B" Stage 2
Project No. 4-0-0009-02
March 2003**

The Perris Valley Channel Lateral "B" Stage 2 project consists deepening and widening the District's existing Lateral "B" channel. The proposed channel will remain mostly earthen and will be approximately 9,600 linear feet in length and approximately 130 feet wide. Existing road crossings at Perris Boulevard and Heacock Street, and an existing concrete drop structure would be reconstructed. Some concrete and rock lining of the channel sideslopes, and minor utility relocations would also be included as part of the project. Following construction, the District will continue to operate and maintain the channel. The proposed project would ensure that 100-year peak flows are conveyed within the channel. The proposed project is located within existing District right of way and is generally bounded by the Perris Valley Channel on the east, Heacock Street on the west, Oleander Avenue on the south, and Nandina Avenue on the north in the city of Moreno Valley. Township 4 South, Range 3 West, Sections 5-6, Perris, California USGS Quad Sheet.

The purpose of the proposed project is to collect and convey the 100-year tributary storm flows from March Air Reserve Base to the existing Perris Valley Channel. The estimated cost of the proposed project is approximately \$3.3 million. Construction and future operation and maintenance costs will be borne by the District's Zone 4 revenue.

A map of the project depicting the project location and typical sections is attached. Additional information may be obtained from Riverside County Flood Control and Water Conservation District, 1995 Market Street, Riverside, California 92501, 909.955.1200.

State Clearinghouse Number (If submitted to Clearinghouse)	Lead Agency Contact Person	Area Code/Telephone/Extension

Project Location (include county)

The proposed project site is located within the city of Moreno Valley, just north of the city of Perris in Riverside County and is generally bounded by Nandina Avenue on the north, Nance Street on the south, Heacock Street on the west and the Perris Valley Channel on the east. Township 4 South, Range 3 West, Section 5-6 Perris, California USGS Quad Sheet.

Project Description:

The proposed project consists of widening and deepening the existing earthen Lateral B Channel from the Perris Valley Channel to Heacock Street.

This is to advise that the Riverside County Flood Control and Water Conservation District has approved the above described project on July 1, 2003 and has made the following determination regarding the above described project:

(Date)

Lead Agency Responsible Agency

1. The project will not have a significant effect on the environment.
2. A Mitigated Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation Measures were made a condition of the approval of the project.
4. A statement of overriding considerations was not adopted for this project.
5. Findings were not made pursuant to the provisions of CEQA.

This is to certify that the final Mitigated Negative Declaration with comments and responses and record of project approval is available to the General Public at:

The Office of the Clerk to the Board, County Administrative Center, 4080 Lemon Street, Riverside, CA 92501.
