

**SUBMITTAL TO THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

324

FROM: Waste Management Department

SUBMITTAL DATE:
February 23, 2004

SUBJECT: Agua Mansa Clean Fuel Station Usage and Pricing Agreements

RECOMMENDED MOTION: That the Board approve the attached agreements with A-Z Bus Sales Inc., CR&R Inc., and Smart Truck Systems.

BACKGROUND: The Waste Management Department (WMD) opened the clean fuel (LNG) station adjacent to the Agua Mansa – Robert A. Nelson Transfer Station in October 2002. At that time the LNG Station had only one committed customer – Burrtec Waste Industries, Inc. Through the efforts of the program coordinator responsible for Fleet Operations at WMD, three additional, although intermittent, customers have requested access to the LNG Station. The terms of their usage and pricing are the same as the established agreement with Burrtec. Although the receipts generated from these agreements are minor, it is expected that these agreements will improve regional air quality efforts while offsetting the costs to operate the fueling facility.
