**Submitted to the Board of Supervisors**

Form 11 – Home Gardens Library/Community Center/Fire Station Project

March 9, 2004

Page 2

**Background:** In 2000 the City of Corona requested that the County Fire Department relocate from the site, which they leased from the City. On July 24, 2001 the Board of Supervisors approved a new site, made findings, approved the consulting services agreement to develop project plans, and conducted a public hearing for the Home Gardens Library/Community Center/Fire Station project. The Redevelopment Agency for the County of Riverside proceeded with the demolition of the newly approved site to allow the Fire Department to temporarily locate modular units on the future Library/Community Center site until the new fire station is completed. In order to allow the Fire Department to continue operating out of modular units during construction, it is proposed that the construction be bid out for completion in two phases. The first phase includes the construction of a 6,600 square foot fire station so the Fire Department will be able to occupy the new building and then remove their temporary modular units from the Library/Community Center site. The second phase includes the construction of a new 9,200 square foot Library/Community Center facility and completion of all offsite improvements. The two new facilities will provide optimum fire services and library/community center services as well as eliminate blighting conditions within the project area.

It is requested that the Board approve the plans and specifications and a project budget of \$6,000,000 as detailed below:

**Project Budget:**

Construction	\$5,330,000
Tests & Inspection Fees	\$60,000
Edison Fees	\$40,000
Water Fees	\$30,000
<b>Subtotal</b>	<b>\$5,460,000</b>
Contingency (10%)	\$540,000
<b>Total:</b>	<b>\$6,000,000</b>

A companion item appears on today's Board of Directors agenda.
