Background: On January 25, 2000 the Board of Supervisors authorized adding the extended powers of park and recreation services within County Service Area No. 152 pursuant to California Government Code 25210.8 which enables the Board of Supervisors to establish zones within any CSA with tax rates, service charges or benefit assessments varying with the extent of benefit to each zone. On October 3, 2000 the Board of Supervisors adopted Resolution No. 2000-247 establishing two (2) park and recreation zones of benefit within CSA 152.

In November 2001, the County of Riverside obtained the services of Purkiss Rose - RSI to develop a Community Park and Recreation Master Plan for County Service Area 152 Zone A. The purpose of the Parks and Recreation Master Plan is twofold: (1) identify recreational needs and demands of the current County Service Area residents; and (2) provide the newly created CSA with strategic plans for the acquisition of parkland development of new recreation facilities.

Adoption of the Park and Recreation Master Plan for CSA 152 Zone A will facilitate the development of parks and recreation facilities by providing guidance to the County of Riverside in the planning, designing, building and financing of new facilities and parks.

Adoption of Ordinance 460.139 , Section 10.35 as the regulatory document will allow the County of Riverside to achieve an organized and structured development for new park and recreational facilities when new subdivisions are proposed within CSA 152 Zone A.

To avoid using County funds to acquire parkland when future residential subdivisions are created within CSA 152 Zone A, in lieu fees are recommended. Adoption of Resolution 2004-170 will establish in lieu fees, specific categories and figures for CSA 152 Zone A.

EXHIBIT A

SECTION 1. Purpose.

The purpose of this resolution is to establish the minimum park standards fee, fair market value, and in-lieu fees per density classification. The establishment of these figures are necessary in order to determine the amount of land or in-lieu fee that a sub-divider will be required to dedicate or pay to the county for acquisition of public parkland and/or the rehabilitation of parkland when a new residential subdivision is created.

SECTION 2. Density Classification Numbers.

The residential density classification categories to be utilized for establishment of park in-lieu fees are as follows:

Density Classification
(Dwelling Units/Gross Acre)

0.4 - \leq 2
>2 - \leq 5
>5 - \leq 8
>8 - \leq 14
>14 - \leq 20
>20

SECTION 3. Minimum Park Standards Fee.

The Board of Supervisors hereby finds and determines that the cost to provide vacant residential land with the Minimum Park Standards acceptable to the County for dedication purposes is \$101,408 per acre.

SECTION 4. Fair Market Values.

The fair market value for vacant residential properties (inclusive of the cost to provide such land with the minimum park standards) for each density classification is as follows:

<u>Density Classification</u> <u>(Dwelling Units/Gross Acre)</u>	<u>Fair Market Value (per acre)</u>
0.4 - \leq 2	\$129,723

<u>Density Classification</u> <u>(Dwelling Units/Gross Acre)</u>	<u>In-Lieu Fee/Dwelling Unit</u>
0.4 - \leq 2	\$1,933
