

**SUBMITTAL TO THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

357

FROM: TLMA - Transportation Department

SUBMITTAL DATE:
April 26, 2004

SUBJECT:

Engineering and Environmental Services Agreement to prepare documents necessary to provide improvements to the existing interchange at Clinton Keith and Interstate 15.

RECOMMENDED MOTION:

That the Board approve the attached Engineering and Environmental Services Agreement between the County of Riverside and URS Corporation, and authorize the Chairman to execute same.

BACKGROUND:

Traffic volumes on the Clinton Keith Road at Interstate 15 have been increasing. During the peak hour, the interchange experiences significant congestion and the interchange capacity is exceeded. Signals were constructed and the ramps were widened in April of 2000. Roadway widening improvements were also constructed on Clinton Keith leading up to the Intersection in November of 2000. Currently, a dedicated right turn lane into northbound on ramp is under construction. There is now a need to provide additional enhancement to the interchange to accommodate the projected traffic growth and capacity needs.

**Honorable Board of Supervisors
Engineering and Environmental Services Agreement to prepare documents necessary to
provide improvements to the existing interchange at Clinton Keith Road and Interstate 15.
April 26, 2004
Page 2 of 2**

A request for proposals was advertised in the Press Enterprise and the Desert Sun. Fourteen firms submitted qualifications. Representatives from Caltrans, the City of Murrieta, and the Riverside County Transportation Department evaluated the written proposals and interviewed the three top ranked firms.

URS Corporation was selected as the top ranked firm to provide the needed services and a not to exceed fee of \$1,587,736 was negotiated between URS Corporation and the Riverside County Transportation Department. The project scope includes preparation of a Project Study Report / Project Report; preparation of preliminary engineering documents; the necessary environmental document; final Plans Specifications and Estimates (PS&E); and construction support services. These documents will need to be reviewed and approved by Caltrans and Federal Highway Administration.
