Barratt Homes has requested the County to construct a storm drain on Leon Road at the developer's expense, under a reimbursement agreement that is in development. The construction of the channel is included in the bid documents as an alternate item of work, in the event that the developer chooses not to accept the prices bid for the storm drain.

The work of relocating conflicting facilities owned by Eastern Municipal Water District, for which the District is responsible, will be bid as an alternate bid schedule.

The estimate of costs as provided in the Financial Data herein reflects the base bid items of work plus the EMWD work only, since the channel construction alternate is not likely to be needed.

Annual traffic signal operating costs are estimated at \$4,500 for each of the 4 new traffic signals, to be funded from gas tax.
