BACKGROUND (continued)

A new fleet services facility will provide all County employees with a convenient location for refueling and maintenance services. The proposed facility will include most of the vehicle maintenance services for western Riverside County, parking for 175 vehicles, approximately 12 maintenance bays (2 for a joint effort with job training), 2 truck bays, and a car wash. There will be a fueling island for gas, diesel, CNG, propane and hydrogen fuels.

Approximately 5,000 square feet of office space will include the director's office and space for operations, administration, IT functions, dispatch and safety. The facility will have an 800 square foot training room adjacent to the training bays with one office for the trainer.

Riverside County Fleet Services and the Redevelopment Agency are proposing to work jointly to develop this proposed fleet services facility in the unincorporated area of Rubidoux.

The property owner has accepted the Agency's offer to purchase the needed property for the sum of \$405,000.00. This purchase price is consistent with the appraisal prepared for this project and current values in the Rubidoux area.

Guided by Government Code Section 7267: "In order to encourage and expedite the acquisition and relieve congestion in the courts, to assume consistent treatment for owners in the public programs, and to promote public land acquisition practices, public entities shall, to the greatest extent practicable be guided by the provision of Section 7267.1: 'The public entity shall make every reasonable effort to acquire expeditiously real property by negotiation'."
