ATTACHMENTS FILED WITH THE CLERK OF THE BOARD

EL CERRITO - KAYNE STREET STORM DRAIN

PROJECT NO.
2-0-0112

The project involves the construction of 1,900 lineal feet of reinforced concrete pipe storm drain with diameters of 30 inches to 48 inches in the community of El Cerrito. The storm drain alignment is located within easements on residential properties and in Kayne Street, Bobbitt Avenue, Case Street and Newton Street. The storm drain will collect runoff from a 61-acre watershed, which currently flows through residential properties, and convey the design peak discharge of 103 cubic feet per second to a proposed water quality basin at the intersection of Liberty Avenue and Bedford Canyon Road. The basin will drain into an existing 42-inch diameter culvert extending beneath Bedford Canyon Road and Interstate 15.
