BACKGROUND: (Continued)

Tuberculosis (TB) continues to be a significant public health problem in California. The CDHS has awarded local assistance funds to health departments to support TB control activities, which include Public Health Nursing (PHN) case management, and treatment via directly observed therapy. In addition, funds are allocated for food, shelter, incentives, and enablers (FSIE).

The \$310,950 funding has been included in the Fiscal Year 2004/2005 budget.
