The work of constructing median island improvements on Van Buren Boulevard, from Fred Street to approximately 350 feet easterly was not included in a prior contract for the Van Buren median island improvements (Project No. B1-0626). The work is being done at this time due to the recent closure of a fire station. Adequate funds remain from the median island project to cover the cost of these improvements.

The submitted plans and specifications have been approved as to form by County Counsel. Environmental clearance is complete.
