BACKGROUND (Cont'd):

The Economic Development Agency (EDA) has completed applicable review procedures and has evaluated the potential effects of the project on the environment. The attached documentation was prepared pursuant to NEPA and the environmental procedures cited in 24 CFR 58.5 and 58.6, and EDA has found that the proposed Desert Hot Springs Self-Help Group 7 project would not have a significant effect on the environment.

PROJECT DESCRIPTION:

The applicant, Coachella Valley Housing Coalition, a non-profit housing developer, is proposing to use up to \$150,000 in HOME funds in the development and construction of ten (10) new single family homes for lower-income families in the City of Desert Hot Springs. The homes will be built through the mutual self-help construction method on 10 scattered residential lots located in an existing urban residential neighborhood. The proposed project will consist of 6 three-bedroom homes and 4 four-bedroom homes. The project is located on scattered in-fill sites throughout the City of Desert Hot Springs and within the blocks bounded by Hacienda Avenue to the North, Two Bunch Palms Trail to the South, Palm Drive to the East, and West Drive to the West. The applicant intends to use up to \$150,000 in HOME funds for hard and soft construction expenses. Other funding sources that are being sought by the applicant include a \$1,267,650 loan from US Department of Agriculture, a \$100,000 loan from the City of Desert Hot Springs Redevelopment Agency funds and \$172,350 from Buyer Sweat Equity. The total development costs are estimated to be \$1,690,000.

County Counsel has reviewed and approved the attached Environmental Assessment and Request for Release of Funds. Staff recommends that the Board approve the attached documents.

FISCAL IMPACT:

The project will be funded with HOME Investment Partnerships Act grant funds, and there will be no impact on the County's General Fund.
