**SUBMITTAL TO THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

FROM: Department of Facilities Management and Department of Animal Services

SUBMITTAL DATE:
August 08, 2005

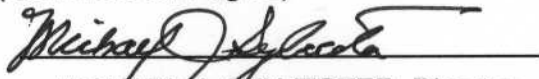

SUBJECT: INSTALLATION OF AN AIR CONDITIONING CHILLER SYSTEM FOR TEMPERATURE AND DISEASE CONTROL AT THE WILDERNESS ANIMAL SHELTER

RECOMMENDED MOTION: That the Board of Supervisors:

1. Approve the design and installation of a new 160 ton Chilled Water Air Conditioning System.
2. Approve project budget of \$675,000.

BACKGROUND: The building was built in 1966 and purchased from the Toro Corporation, a manufacturer of grounds equipment, for use as an Animal Shelter. The original design of the building did not possess the required air conditioning specifications for disease control or air changes to accommodate the current ASPCA standards. The existing system for the dog kennels is inadequate to achieve the desired temperature and humidity for a portion of the year.

COUNTY OF RIVERSIDE
OFFICE

BOARD OF SUPERVISORS

Form 11: INSTALLATION OF AN AIR CONDITIONING CHILLER SYSTEM FOR
TEMPERATURE AND DISEASE CONTROL AT THE WILDERNESS
ANIMAL SHELTER

August 16, 2005

Page 2

BACKGROUND: (Continued)

The Animal Shelter has suffered through two successive years of high temperatures and high humidity in the summer months. In order to achieve the necessary environment required of the ASPCA a new air conditioning chiller system must be installed.
