

Due to the currently volatile construction market and changing material and labor costs, there is a probability that bids received will be higher than the Engineer's Estimate, which was accurate at the time of preparation. The intent of the Transportation Department is to review construction costs for asphalt concrete approximately 2 weeks prior to bid opening. In the event that the market prices at that time substantially exceed the County's estimate and budget, the Transportation Department will adjust the project budget or the scope of work, or both in the most beneficial manner. This approach is anticipated to be a practical approach to the challenge of predicting asphalt concrete prices in this difficult construction market.

The submitted plans and specifications have been approved as to form by County Counsel. Environmental clearance is complete. The roads to be resurfaced are as follows:

- | | |
|--|--|
| 1 Albany Dr: Decatur Way to Boston Dr | 28 Harrisburg Dr: Charlestown Dr to Medford Way |
| 2 Allentown Dr: Provo Ct to Medford Way | 29 Hartwick Rd: Portsmouth Rd to Danbury Rd |
