traffic that has resulted from the rapid growth in the Eastvale area. The project will provide increased road capacity on Limonite Avenue, and needed storm drain improvements on both Limonite Avenue and Archibald Avenue. The project also includes intersection and traffic signal modifications that will improve intersection capacity and operations.

A cooperative agreement with the Riverside County Flood Control and Water Conservation District for funding of the storm drain improvements is in development and will be brought before the Board for action prior to the submittal of the contract award for the project.

The submitted plans and specifications have been approved as to form by County Counsel. Environmental clearance is complete.

Project No. A5-0267.
