BACKGROUND:

inspected, operated and maintained by the District, County and Valley Wide. The Agreement is necessary to formalize the transfer of necessary rights of way and to provide for District construction inspection of the referenced facilities associated with Tract Nos. 30694 and 30696.

Upon completion of construction, the District will assume ownership, operation and maintenance of the flood control facilities. The County will assume ownership, operation and maintenance of the facilities' associated catch basins, connector pipes and laterals located within its rights of way. Valley Wide will assume operation and maintenance of the appurtenant recreational facilities. County Counsel has approved the Agreement as to legal form and both Valley Wide and the Developer have executed the Agreement. This matter is also on the County's Board Agenda for approval this same date.

The Developer is funding all construction and construction inspection costs and is providing a one-time payment to defray anticipated operation and maintenance costs for a period of ten years following acceptance of the facilities by the District. Future operation and maintenance costs will accrue to the District.
