**FLOOD CONTROL AND WATER CONSERVATION DISTRICT BOARD SUBMITTAL
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

SUBJECT: Notice of Completion
El Cerrito – Kayne Street Storm Drain
Project No. 2-0-0112

SUBMITTAL DATE: March 14, 2006

Page 2

BACKGROUND:

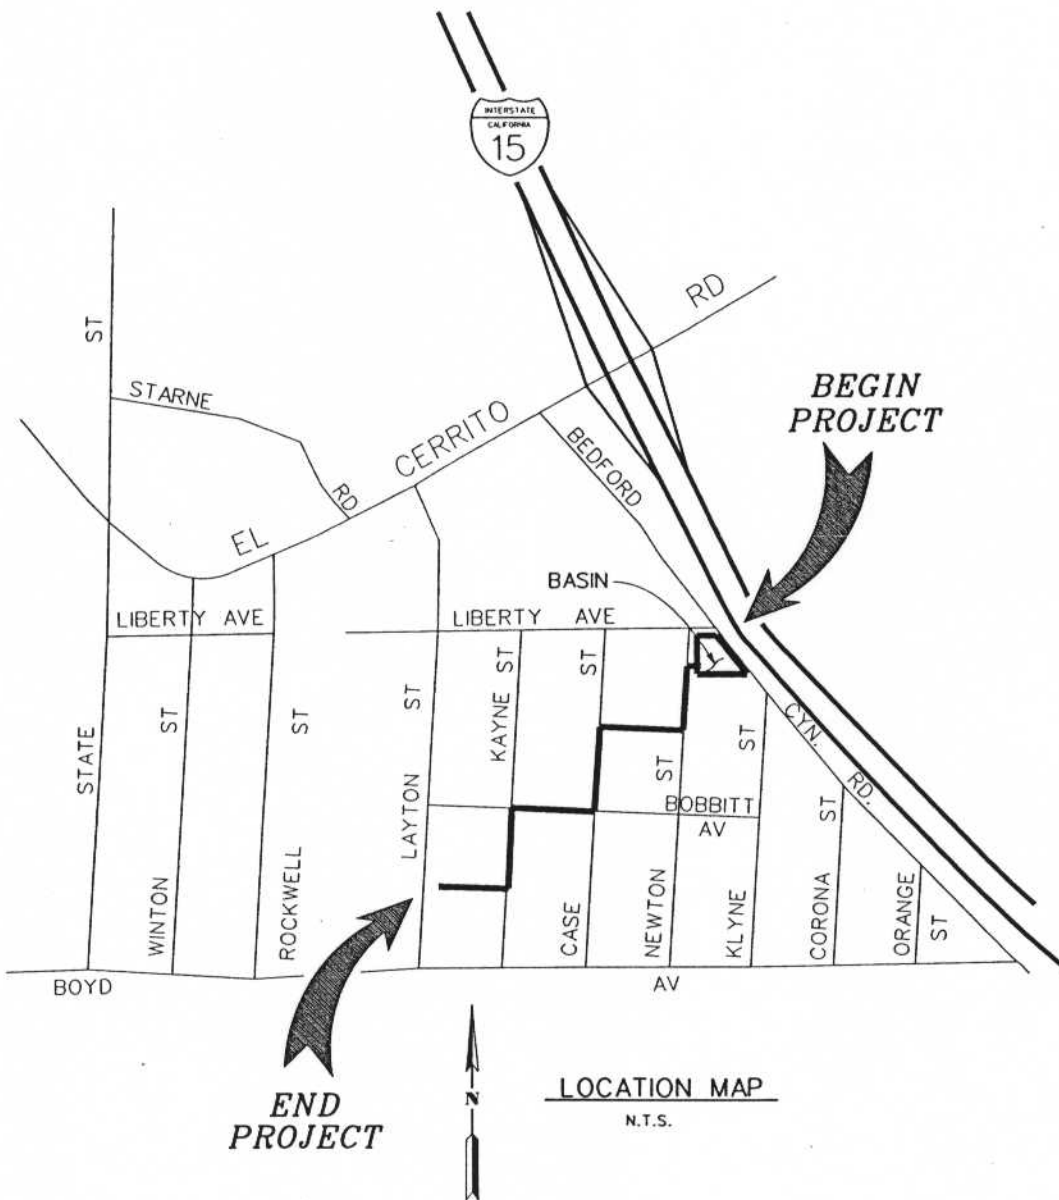

The Board approved the contract with 4-Con Engineering, Inc. as Agenda Item Number 11.1 on November 23, 2004 in an amount of \$645,679.00. The District is in receipt of requests for additional compensation for additional work associated with the relocation of the storm drain due to utility conflicts and cleaning debris out of existing facilities connecting to the project. The total project construction cost is estimated not to exceed \$690,000.00, including all costs associated with the claims for additional compensation.

Final inspection of the above referenced project was made, and the project was found to be complete according to plans and specifications. A brief project description and location map are attached.

P8\104365

EL CERRITO - KAYNE STREET STORM DRAIN

PROJECT NO.
2-0-0112

The project involves the construction of 1,900 lined feet of reinforced concrete pipe storm drain with diameters of 30 inches to 48 inches in the community of El Cerrito. The storm drain alignment is located within easements on residential properties and in Kayne Street, Bobbitt Avenue, Case Street and Newton Street. The storm drain will collect runoff from a 61-acre watershed, which currently flows through residential properties, and convey the design peak discharge of 103 cubic feet per second to a proposed water quality basin at the intersection of Liberty Avenue and Bedford Canyon Road. The basin will drain into an existing 42-inch diameter culvert extending beneath Bedford Canyon Road and Interstate 15.
