**SUBMITTAL TO THE FLOOD CONTROL AND WATER CONSERVATION DISTRICT BOARD  
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

**FROM:** General Manager-Chief Engineer

**SUBMITTAL DATE:**  
March 21, 2006

**SUBJECT:** Request for Authorization to Pay Flood Emergency Costs

**RECOMMENDED MOTION:**

- Authorize the District to pay Paul Hubbs Construction Company, Inc., for all work done within the San Sevaine Channel to remove sediment and other debris attributable to the storms of early February 2005.
- Direct the Purchasing Agent to issue a purchase order on behalf of the District.

**BACKGROUND:**

Storm runoff from heavy thunderstorm activity in early February 2005 resulted in an unusually high volume of sediment being deposited within the District's San Sevaine Channel between Highway 60 and Limonite Avenue. The debris laden flows caused an estimated \$1 million in damages to the concrete channel invert and to the bridge piers at street crossings. In order to remove the accumulated sediment prior to the upcoming rainy season, in hopes of avoiding further scour damage to the channel, the District called on Paul Hubbs Construction for assistance. As District crews worked to gather and load the sediment,

**FLOOD CONTROL AND WATER CONSERVATION DISTRICT BOARD SUBMITTAL  
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

**SUBJECT:** Request for Authorization to Pay Flood Emergency Costs

**SUBMITTAL DATE:** March 21, 2006

**Page 2**

**BACKGROUND cond.:**

Paul Hubbs Construction expeditiously trucked approximately 15,000 cubic yards of material to a stockpile area at the District's Day Creek Channel project. That stockpiled material will be utilized as bedding material for the District's Day Creek Channel Stage 6 project. The District anticipates saving approximately \$200,000 by not having to pay for import of that select material.

The District has filed claims through the State and Federal governments for reimbursement for the storm damage repairs as well as all sediment removal costs incurred.

**FINANCIAL:**

The District budgets for flood emergencies and/or unexpected contingencies to ensure life and property risks are minimized. Paul Hubbs Construction Company, Inc., responded without hesitation to our emergency call for assistance. An invoice for services rendered is now being submitted for payment and the District would like to respond with the same in-kind quick response. FY05/06 Zone 1 Budget has sufficient funds available to meet the estimated costs. Costs associated with the emergency work effort total \$92,869.97.
