COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

**FROM:** Community Health Agency/ Environmental Health

**SUBMITTAL DATE:**  
May 1, 2006

**SUBJECT:** Fee Revisions within the Environmental Health Service Fee Provisions of Riverside County Ordinance No. 640

**RECOMMENDED MOTION:**

1. That the Board introduce and set for Public Hearing the adoption of Ordinance 640.9 an Ordinance relating to Environmental Health Service fees;
2. That the Board authorize the Clerk to place an advertisement for the Public Hearing in the appropriate local publications;
3. That, upon the close of the Public Hearing, the Board adopt Ordinance 640.9.

**BACKGROUND:**

The Department of Environmental Health has a legal mandate to conduct specific activities, as defined, and may levy and collect fees to support the cost of these activities. Board of Supervisors' Policy B-4 directs those departments that have the ability to generate revenue from fees shall do so. The Department of Environmental Health has demonstrated success in offsetting its operating costs through the implementation of fee-for-service programs. With the exception of Vector Control (\$345,530) and four positions on our Hazardous Materials Response Team (\$380,461) the Department receives no general funds.

It has been two years since our last fee increase. Since that time salaries for professional staff have or will increase by a 12% COLA (6% in FY 05/06 and 6% in FY 06/07 with an additional 11% (Hard to Recruit) added to the top step for Environmental Health Specialists who work in our desert offices. Clerical staff received a 7.1% salary increase, an addition to a COLA, due to a parity study. Our remaining staff have or may (depending on their Union representation) receive a 4.5% combined COLA for FY 05/06 and FY 06/07. Agency support services costs have increased by \$711,829 and COWCAP by \$398,611 over the same period. The fee increases in this proposal and projected increases in service will generate sufficient revenue to cover projected costs through FY 06/07.

### **Summary of Fee Changes**

A strike-out version (Attachment 1) and a final version (Attachment 2) of the ordinance changes, as well as a Fee Comparison Chart (Attachment 3) are attached for your review. The fees contained in these documents are in the same order as the activities described below. Except for Underground Storage Tanks fees, as indicated below and hourly rates, all fees have been increased 10%, which averages 5% per year since the last increase.

#### Public and Private School Food Facility Permits

These new permit fees have been developed to specifically address the type of food service operations found at primary schools, secondary schools, and high schools. Except for the 100% pre-packaged category, these fees are lower than what other food facilities (such as commercial restaurants) would pay. This primarily reflects our lower frequency of routine inspections at these facilities.

#### Continental Breakfasts at Hotels and Motels

Many hotels and motels now routinely provide some form of continental breakfasts (which may include limited food preparation) for their guests. Again, these new fees establish a lower fee than a normal food facility and reflect a rate more in line with their limited food operations.

#### Temporary and Occasional Event Organizers

New categories have been added here in an attempt to encourage and promote organizers of these community events to opt for our "Discounted Fees" for these types of activities. If an organizer opts for our discounted fees, not only is the organizer fee waived, each food facility pays less money for a permit fee. However, this requires the event organizer to provide us with a list of all vendors and pay all fees at least two weeks prior to the event. Events run smoother this way and fewer problems are experienced by the vendors, the event organizers, and our Department.

Annual Operating Permit for Alternative On-Site Waste Water Treatment Systems (OWTS)

The Board recently approved amendments to Ordinance 650 which included two new permit categories and their associated fees. The new categories are Alternative OWTS or holding tanks and Alternative OWTS with advanced treatment and are included in Ordinance 640 per reference in Ordinance 650.

Underground Storage Tank Permits

The permit fees for underground storage tanks have been raised 10% (\$402) for the first tank and from \$300 to \$402 for the second and subsequent tanks at each location. We have found, as have other counties, that the time involved in inspecting the first tank is equivalent to inspecting each subsequent tank, we are therefore proposing to bring the fee to the same level charged for the first tank.

**FINANCIAL DATA**

These proposed fees have been reviewed and approved by the County Auditor/Controller. If approved, the fee adjustments will result in an increase in revenue to the Department of approximately \$1,502,469 annually. These fee increases have been included in the FY 06/07 Budget.
