

The Honorable Board of Supervisors

RE: Storm Damage Repairs, Reconstruction of portions of Tenaja Road and Clinton Keith Road in the Santa Rosa Plateau / Murrieta area

June 30, 2006

Page 2 of 2

The Transportation Department has prepared two alternate designs for the improvements, and the bid documents include two alternate bid schedules. Bids on the two alternate construction methods will enable the most informed decision to be made on the basis of benefit and cost. The financial data provided in this submittal is for Alternate Bid Schedule no. 1.

The Transportation Department is currently seeking reimbursement from FEMA for a portion of the project costs. However, uncertainties remain at this time regarding the time-frame and availability of FEMA reimbursements. By Minute Order dated May 9, 2006 (agenda item no. 3.26), the Board approved the Transportation Department's report and recommendations regarding the funding for various storm damaged roads, including Tenaja Road and Clinton Keith Road. After receipt of bids, the Department will prepare and submit a budget analysis and recommendations for the project.

The submitted plans and specifications have been approved as to form by County Counsel. Environmental clearance is complete.

Project No. 4505120107 and 4505120108.
