BACKGROUND (continued):

The Agreement is necessary to formalize the transfer of necessary rights of way and to provide for District construction inspection of the referenced facilities associated with Tract Nos. 27251 & 27251-1.

Upon completion of the facilities' construction, the District will assume ownership, operation and maintenance of the mainline storm drain, a detention basin and a connector drain between the basin and mainline storm drain. The City will assume ownership, operation and maintenance of the facilities' associated catch basins, connector pipes and laterals located within their rights of way. County Counsel has approved the Agreement as to legal form and both the City and the Developer have executed the Agreement.

The Developer is funding all construction and construction inspection costs. Future operation and maintenance costs will accrue to the District.
