BACKGROUND:

The Agreement is necessary to provide for District construction inspection of the referenced facilities associated with Tract Nos. 30931 and 30931-1. Upon completion of the facilities construction, the District will assume ownership, operation and maintenance of the mainline storm drains. The County will assume ownership, operation and maintenance of the associated catch basins, laterals and connector pipes located within its rights of way.

County Counsel has approved the Agreement as to legal form and the Developers have executed the Agreement. This matter is also on the County's Board Agenda for approval this same date.

The Developers are funding all construction and construction inspection costs. Future operation and maintenance costs will accrue to the District.
