**BACKGROUND (Continued):**

The Song-Brown program provides support funding to family practice training programs and was passed by the California Legislature in September 1973 to encourage program graduates to practice in designated underserved areas of California. It has expanded the training programs of family practice residents by providing funding for over thirty years.

RCRMC Family Practice Residency Training Program has participated with and received funding from the Song-Brown program since July 1, 1997. The program has recently submitted a renewal application to continue funding of three additional residents for the program and applied for additional funding to assist the residency program in providing primary care geriatric services at the newly implemented Mead Valley Community Center. The resident physicians will provide health education services on a bi-weekly basis to seniors in the Mead Valley area and will provide home visit to the homebound elderly.

RCRMC Family Practice Residency Training Program has been awarded with one core unit of capitation renewal equal to \$51,615.00 and two core units of new capitation equal to \$103,230.00 for a total award of \$154,845.00 to be received in increments of \$51,615.00 annually for fiscal years 2006/07 through 2008/09.
