BACKGROUND:

The Agreement is necessary to provide for District construction inspection of the referenced facilities associated with Plot Plan 19099. Upon completion of construction, the District will assume ownership, operation and maintenance of the mainline storm drains. The County will assume ownership, operation and maintenance of the associated catch basins, laterals and connector pipes located within its rights of way.

County Counsel has approved the Agreement as to legal form and the Developer has executed the Agreement. This matter is also on the County's Board Agenda for approval this same date.

The Developer is funding all construction and construction inspection costs. In addition, the Developer is making a one-time payment to the District's Zone 7 Maintenance Trust Fund to defray future District operation and maintenance costs.
