Monetary Benefits Attributable To The Assistance Of County Veteran Service Offices

The California Department of Veterans Affairs has determined the number, monetary value and average value of benefits paid by the United States Department of Veterans Affairs (USDVA) to eligible veterans and their dependents during fiscal year 2005-2006. These benefits are directly attributable to the activities of the County Veterans Service Offices.

New recurring veteran benefits generated in fiscal year 2005-2006 will bring approximately \$104 million dollars per year into the State's economy; an additional \$73.5 million was brought into the economy for one-time payments during 2005-2006.

The attached spreadsheet reports:

- County-by-county detail on "new or increased monetary benefits paid to eligible veterans by the federal government attributable to the assistance of county veteran(s) service officers" as required by Military and Veterans Code §972.1 (c) on both a monthly (Column B), and annualized (Column D) basis;
- The activities of county veterans service officers, as required by Military and Veterans Code §974.(a)(1) thru (6), including:
 - Number of monthly federal benefits obtained on behalf of veterans (Column A)
 - Total value of those monthly benefits (Column B)
 - Average value of those monthly benefits (Column C)
 - Number of one-time benefit payments obtained (Column E)
 - Total value of one-time benefits obtained (Column F) and
 - Average value of one-time benefits obtained (Column G).

All reported amounts are extracted from award letters issued by the (USDVA) to the claimant as submitted by the individual County Veterans Service Office on a semi-annual basis.
