BACKGROUND:

Mecca Elementary students will be taking an educational trip to Washington D.C. in May. The students will get an opportunity to see for themselves national landmarks, and to learn about government. The 5th graders who are participating have demonstrated a desire to further expand their knowledge, and they've demonstrated leadership qualities.

The students, who are primarily from very low income families, have been working hard in fundraising activities and have raised some funds but are short of their goal.

The Fourth District believes that the students will benefit greatly from this educational trip. They will experience history and government in a more meaningful and significant form. We feel the need to support our educators in their goal to show our students that there is a greater world out there for them to explore.
