RDA will subsequently reconvey the District rights of way to RTE. 60 in accordance with the provisions of a separate Development Agreement between RDA and EMR Residential Properties LLC and certain assignments pertaining thereto. The District rights of way are associated with certain existing flood control and drainage facilities that are to be supplanted by new facilities that are to be constructed by SunCal pursuant to the provisions of the Cooperative Agreement.

The Cooperative Agreement establishes the terms and conditions by which SunCal will construct the Emerald Meadows Channel and related drainage facilities. The Agreement is necessary to provide for District and County inspection of the proposed drainage improvements. Upon completion of construction, the District will assume ownership, operation and maintenance of the channel and major storm drains. The County will assume ownership, operation and maintenance of the associated road culverts, catch basins, laterals and connector pipes located within its rights of way.

County Counsel has approved the Agreements as to legal form. Both the Purchase and Sale and Cooperative Agreements appear on the RDA's agenda this same date. The Cooperative Agreement appears on the County's agenda this same date.

The SunCal is funding all costs associated with the construction and inspection of the Emerald Meadows Channel drainage facilities. Future operation and maintenance costs will accrue to the District.
