BACKGROUND: WRCOG works with 14 cities in addition to the County on numerous regional issues including air quality, planning, transportation and solid waste. WRCOG provides a voluntary forum and structure to facilitate local government and, when appropriate, implements cooperation programs regionally. The General Assembly will explore how the decisions we make today affect the region over the next several years and how leadership will continue to play a major part in our quality of life. It is important that the County support this regional effort. I encourage the Board of Supervisors to match my sponsorship of this important event and urge support of this use of Community Improvement Designation funds.
