**BACKGROUND:** The Puente Project for Riverside Community College District has been in effect for the past nine years. Puente has brought together faculty from the college and given them highly specialized training. They work with underserved students to help them prepare for transfer to a four-year college or university. Students are also paired up with mentors from the community. By working with these professionals, the student is exposed to different careers and given guidance to reach their goals. The Puente Program has planned a trip to Northern California to visit four universities. These first-generation college students will visit CSU Monterey Bay, UC Santa Cruz, UC Berkeley and Stanford University.

I request that the Board of Supervisors approve a contribution of \$2,500.00 to support the Riverside Hospice.
