RE: Reconstruction of Cajalco Road, from 1,014 feet West of La Sierra Avenue to 519 feet East of Kirkpatrick Road and Metal Beam Guard Rail Installation at Three Locations on Cajalco Road, Lake Mathews area.

April 9, 2007

Page 2 of 2

The reconstruction project is necessary due to deteriorating pavement conditions, and the installation of metal beam guard rail at three locations is due to public safety concerns.

The three projects have been combined under one proposed construction contract in order to gain economy of scale with respect to construction costs and to reduce engineering and administrative costs:

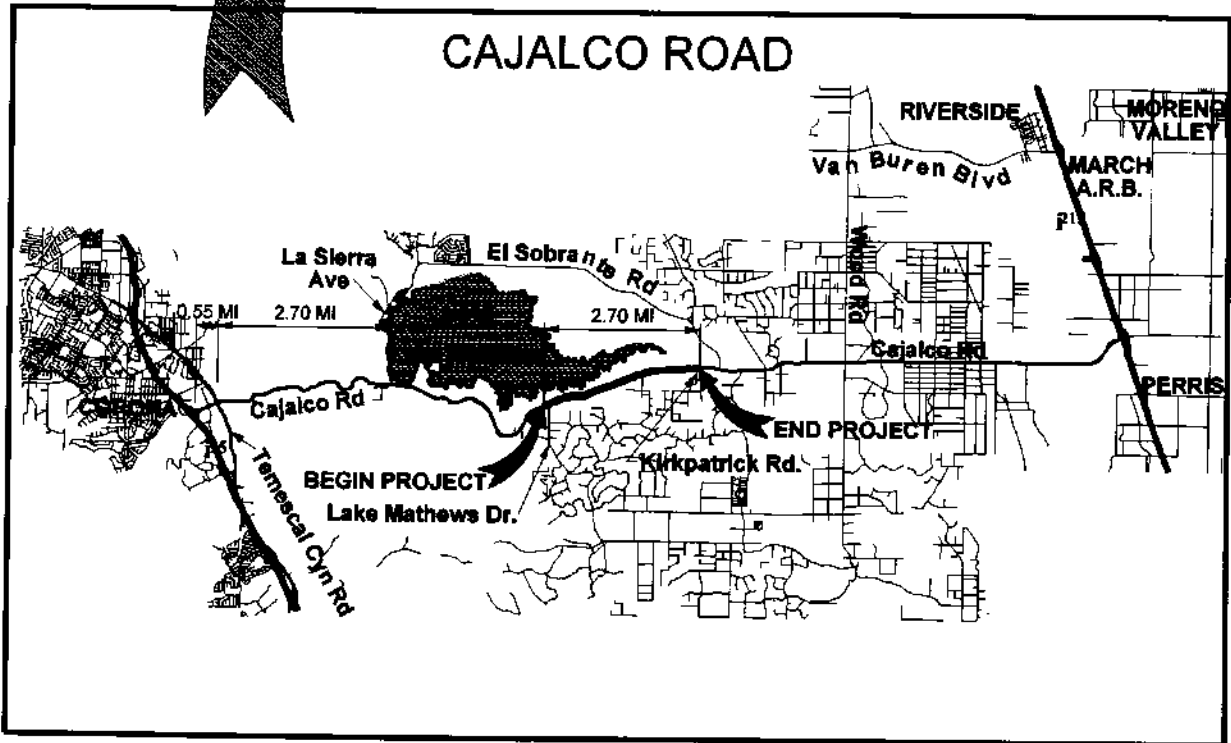

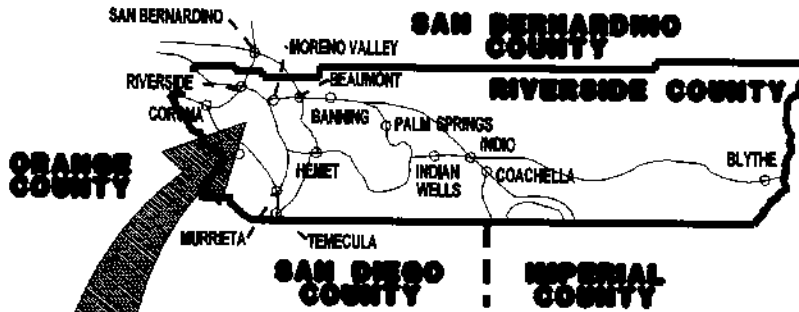

1. Cajalco Road, La Sierra Avenue to Lake Mathews Drive
Roadway Reconstruction (3.0 miles), Project no. A3-0473
2. Cajalco Road, Kirkpatrick Road to Lake Mathews Drive
Roadway Reconstruction (2.7 miles), Project no. A7-0345
3. Cajalco Road,
Apx. 1 mile east of La Sierra Ave. to apx. 2 miles east of La Sierra Ave.
Construction of Metal Beam Guard Rail at three locations, Project no. B4-0495

The submitted plans and specifications have been approved as to form by County Counsel. Environmental clearance is complete.
