

**SUBMITTAL TO THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

243

FROM: Waste Management Department

SUBMITTAL DATE:
April 9, 2007

SUBJECT: Introduction of County Ordinance 779.8

RECOMMENDED MOTION: That the Board of Supervisors:

1. Introduce and set for public hearing those changes set forth below and in the Appendices of Ordinance 779, specifically Appendices A, C, and D to the Ordinance;
2. Direct the Clerk of the Board to publish a notice of the public hearing date of May 8, 2007 and the proposed Waste Management Department charges, as provided in Government Code Section 6066; and
3. Adopt Ordinance 779.8 at the close of public hearing on May 8, 2007 with the changes to the appendices to be effective July 1, 2007.

BACKGROUND: The Ordinance 779 outlines the General Manager-Chief Engineer's (GM-CE) authority to operate the County disposal sites and transfer stations. In addition to establishing fees and penalties, this ordinance includes the basis for operation regulations including waste inspection, salvage, and safety. (Cont'd)

BACKGROUND (Cont'd):

As with many of our vendors and customers, the Waste Management Department's (WMD) costs continue to increase along with the inflation factors in the area. Because the Department is sensitive to the rising costs within the community, WMD reviews its operations and projected capital improvements annually with a projection of five and ten years' operations and necessary expansions. Through stringent attention to operations and cost containment, the Department has developed a budget for fiscal year 2008 that although higher than the projected expenses for fiscal year 2007 is approximately \$9 million less than the adopted budget for fiscal year 2007. Offsetting the cost containments, however, are decreases in estimates of overall tonnage revenues for both fiscal year 2007 and 2008. The effect is that the Department must fund approximately \$5 million of its fiscal year 2008 budget with unreserved net assets. The items budgeted in this manner are land, liner expansions, and equipment.

Construction has slowed within the County, but the growth in the County population and the requirements of the State to segregate certain waste streams continues to put pressure on the remaining landfill sites causing the Department to offer different disposal alternatives, as well as expanding landfill area and hours of operations. This requires additional and different equipment, equipment maintenance, training, and personnel. The effects of the growth are seen in the proposed budget for the year beginning July 1, 2007.

At this time, WMD is limited to annual Consumer Price Index (CPI) increases for all its long-term, contracted transfer station haulers and the contract franchise area direct haulers. These haulers represent approximately 80% of the tonnage accepted at the County landfills. The Department is recommending the same CPI increase for direct haul tonnage received at the gated and scaled landfills. The CPI increase based on the 12 month period ending December 31, 2006 is 3.3% or \$0.81 and \$1.05 a ton for long-term, contracted transfer station haulers and direct haulers, respectively. The rates would then become \$25.27 for transfer trucks (\$25.83 for Area 8 transfer trucks) and \$32.96 for direct haul vehicles. Charges for specialty and hard to handle disposals are calculated separately and are recommended to be increased by the same CPI.

In addition to the CPI increases for disposal tonnage, the Department is requesting an increase in the fee charged for unloading past closing. These fees have not been adjusted for over ten years while the rate of pay and the costs to run equipment have continued to escalate. As in the past, there will be no charge for the first 15 minutes of unloading past closing. Charges specify a 16 to 30 minute interval and a greater than 31 minutes interval and are based on the average overtime salaries and benefits for two equipment operators and a gate service assistant plus minimal equipment costs. The new fees are increased from \$10 and \$20 respectively to \$60 and \$120.

The Department constantly strives to curtail illegal dumping and, to that end, recommends that there be no change in the minimum load fees and that the County continue its policy of allowing for the disposal of no more than two cathode ray tube (CRT) appliances (e.g. televisions or computer monitors) per customer per day at no charge. In addition, the Department recommends that those residents in exempt collection service areas and charged under Appendix B of the Ordinance have no increase in their disposal rate and no changes in the discount schedule.

BACKGROUND (Cont'd):

The fees for commercial haulers within the rural areas (Appendix C) are recommended to be adjusted to reflect the CPI increase that is recommended for all non-contract haulers with waste loads in excess of .4 ton. The Commercial Card is used in ½ ton increments for 24 times without expiration. The recommended fee for this card is \$395.52 (or \$32.96 per ton for 12 tons).

The Department requests that Appendix D which contains the Department's miscellaneous fees be amended to allow for the Department to recapture the cost of providing additional copies of quarterly Disposal Reports to cities and consultants, disposable safety vests to all landfill visitors, and compost bins to Riverside County residents.

WMD began supplying the Biostack compost bins in 1993 as part of the Reclamation and Recycling Programs. Under that program, the Biostack bins were subsidized by order of the Board of Supervisors at \$20.00 a bin. The Department has been able to maintain a level cost to the residents of \$35.00 by buying the bins in quantity, but recent cost increases have caused the Biostack bins to increase in price to \$66.00. With a small portion for storage and handling the bins and allowing for the subsidy, the Department is requesting to increase the charge for the Biostack bins to \$50.00. These bins will continue to be limited to Riverside County residents and a quantity purchase of no more than three (3) bins.

The Presto compost bin has been steadily increasing in cost over the past five years. It is a smaller bin and has no County approved subsidy. Originally, the Department had charged \$9.00 for the bins, but currently the cost to purchase the bins is \$11.38 with a quantity purchase (\$15.08 with a minimum purchase) and the Department stores the extra bins. Therefore, the Department is recommending an increase in the Presto bins from \$9.00 to \$12.00.

The distribution of the disposable orange safety vests has enhanced the Department's safety efforts at the landfills. Originally, the disposable vests were funded with grant monies. Currently, that funding is not available. Although the cost to buy the disposable vests is quoted at \$0.80 a vest without a quantity discount, the Department believes that the minimal charge of \$0.75 a vest is sufficient to cover the quantity purchase, storage, and distribution of the vests. Those persons who either have a safety vest or keep their disposable vest through multiple trips to the landfill will not need to buy a vest with each visit. If, in the future, grant funding should become available for these vests, the charge would be suspended.

The State requires that the County provide an initial Disposal Report to each jurisdiction disposing of waste at a County landfill. Jurisdictions and consultants often request additional disposal report information covering current and prior years, causing Department staff to spend additional time and resources producing synopsis reports for their use. Currently, it is estimated that the additional report requests take an average of 15 to 30 minutes to produce and mail to the recipients. In the future it is expected that these reports can be available electronically through a password protected program that will allow each jurisdiction to access their information in the particular manner that they choose to use it. Consultants would continue to need the additional reports. The Department recommends a nominal \$10.00 charge for additional Disposal Reports.

Attachment 1 has been provided to outline the recommended changes to the WMD fee structure.

1 stations and disposal sites shall be under the supervision of the General Manager-Chief
2 Engineer of the Waste Management Department who shall have the power and the duty to
3 prescribe reasonable regulations regulating the use by the public and the operation of such
4 sites. Such rules shall include, but need not be limited to, the following subjects:

- 5 a. Days and hours of use.
- 6 b. Charges for use of sites at times other than regular hours, which shall be
7 sufficient to reimburse the County for equipment, personnel and overhead
8 costs.
- 9 c. Maximum size of articles and objects being dumped.
- 10 d. Allocation of various types of waste to specific sites and the placement of
11 waste within any site.
- 12 e. Prohibition or conditional acceptance of harmful or dangerous materials, if
13 allowed under the state operating permit, including a reasonable charge for
14 their acceptance.
- 15 f. Prohibition of unauthorized persons from access to areas within a site,
16 including the unauthorized conducting of salvage operations.

17 Except for short term emergency situations, any regulation fixing days or hours of
18 operation shall be submitted to the Board of Supervisors for approval before taking effect. All
19 regulations prescribed by the General Manager-Chief Engineer of the Waste Management
20 Department shall be filed in his or her office and shall be available for public inspection.

21 **Section 5. HAZARDOUS WASTE LOAD CHECKING PROGRAM.** All
22 Operators of landfills and transfer stations in the County, including the County itself, shall
23 implement and maintain a hazardous waste load checking program at each of their solid waste
24 facilities as required by California law (pursuant to Titles 14 and 27, California Code of
25 Regulations); and which program shall also meet the following minimum requirements:

- 26 a. Each solid waste facility operator shall perform random loadchecks across

1 load types of residential, commercial, and industrial to detect hazardous waste
 2 before such incoming waste is transferred to, and/or disposed at, the landfill.
 3 Such program shall have the objectives of: (1) preventing hazardous waste
 4 from being placed in a landfill not permitted to receive such waste and (2)
 5 educating and discouraging customers from bringing in such material. The
 6 minimum number of loadchecks performed at each solid waste facility shall
 7 comply with the following schedule:

8 **Landfill and Transfer Station Facility Random Loadcheck Schedule – Per Average Daily Tonnage**

<u>Average Daily Tonnage</u>	<u>Random Samples per Day*</u>
0 to 50 tons/day	**
51 to 200 tons/day	2
201 to 400 tons/day	4
401 to 600 tons/day	6
601 to 800 tons/day	8
801 to 1000+ tons/day	10

16 *The initial schedule is for the number of “random samples per day” to be applied to
 17 three days a week. The three days shall be rotated so arriving customers will not know
 18 when they may be loadchecked. If a problem still persists with large quantities of
 19 hazardous waste showing up at the landfill or transfer station, the Enforcement
 20 Agency or the General Manager-Chief Engineer of the Waste Management
 21 Department may require the number of “random samples per day” to be applied every
 22 day the solid waste facility is open until the problem is deemed corrected.

23 **As defined in the State Permit.

25 b. An inspection form (which shall be certified for completeness and accuracy by the
 26 loadcheck inspector on duty) shall be filled out in its entirety at the time of each
 27 loadcheck performed at the solid waste facility. The inspection form shall include
 28 the following information:

29 **-date and time of inspection**

30 **-loadcheck inspector name, (certification)**

- 1 **-load type** (residential, commercial, industrial)
- 2 **-hauler/company name/customer name**
- 3 **-driver name**
- 4 **-vehicle make/model**
- 5 **-license plate number**
- 6 **-load origin** (jurisdiction, and customer/store where picked up)
- 7 **-hazardous waste found** (type/name, class, container size/quantity,
- 8 volume/weight, unit of gallons or pounds) if any
- 9 **-disposition of material** (picked up by responsible party, returned with carrier
- 10 at time of inspection, load was free of hazardous waste, solid waste facility
- 11 assumed responsibility of the material, etc.).

12 Each inspection form shall be reviewed by management and initialed verifying
13 completeness.

- 14
- 15 c. The General Manager-Chief Engineer of the Waste Management Department or
- 16 his designated representative and/or a representative of the Enforcement Agency
- 17 shall have the right to enter the solid waste facilities at any time and observe the
- 18 operator performing loadchecks. The General Manager-Chief Engineer of the
- 19 Waste Management Department or his designated representative and/or a
- 20 representative of the Enforcement Agency may perform loadchecks in order to
- 21 audit the solid waste facility loadchecking program and/or assist the operator in
- 22 making its loadchecking program successful.

23 **Section 6. SALVAGE OPERATIONS.** Subject to the approval of the Board of
24 Supervisors, salvage operations of reusable waste materials at County owned, leased, or
25 contracted transfer stations and disposal sites may be conducted only by such persons as are
26 authorized to do so and upon such terms and conditions as are imposed by the General

1 Manager-Chief Engineer of the Waste Management Department.

2 **Section 7. FEES.**

- 3 1. **Tipping Fees at Scaled Urban Sites:** Pursuant to the authority of
4 Government Code Section 25823, fees for the disposal of solid waste and
5 disposal of liquid waste at enumerated landfills shall be as established by the
6 Board of Supervisors following a duly noticed public hearing. The fees so
7 established shall be in an amount sufficient to cover all costs including but not
8 limited to the following: closure/postclosure (including past unfunded costs),
9 remediation, environmental mitigation, state mandated and other pass-through
10 fees, and general operations. Such fees and the landfills to which they shall
11 apply appear as Appendix A to this Ordinance. The Board of Supervisors may
12 establish different rates through contractual agreements when the terms of said
13 agreements help stabilize revenues and system rates over a long term period.
- 14 2. **Fees for Disposal at Rural Sites:** Pursuant to the authority of Government
15 Code Section 25823, fees for the disposal of solid waste at landfills and
16 transfer stations, formerly in a land use assessment area, shall be as established
17 by the Board of Supervisors following a duly noticed public hearing. The fees
18 so established shall be calculated to substantially cover a fair share of the
19 estimated costs for these facilities. Cards permitting entrance into these
20 landfills and transfer stations shall be offered for sale to residents and
21 businesses (only in the local areas surrounding these sites as shown on maps in
22 Exhibit 1) at rates set by the Board of Supervisors. No access to these
23 facilities will be allowed without a card, except in cases where permitted waste
24 haulers or other large commercial users have negotiated separate contracts
25 with the County. Waste from outside these areas shall not be accepted at the
26 rural sites providing however, waste from unincorporated areas outside of, but

1 near the borders of these service areas may be accepted under the same terms
2 and conditions herein set forth, if it is determined by the General Manager-
3 Chief Engineer of the Waste Management Department that this is the most
4 practical way to provide disposal service to these customers. Such rates and
5 the landfills and transfer stations to which they apply shall appear in
6 Appendices B and C to this Ordinance.

7 3. **Miscellaneous Fees.** A schedule of miscellaneous fees is attached as
8 Appendix D.

9 **Section 8. PROHIBITIONS.** No person shall violate any regulation prescribed by
10 the General Manager-Chief Engineer of the Waste Management Department regulating the use
11 of a County disposal site or transfer station, or fail to obey any sign giving notice of any
12 regulation, maintained at any such site or facility by the General Manager-Chief Engineer of
13 the Waste Management Department. Violation of any such regulation shall be a violation of
14 this Ordinance.

15 **Section 9. VIOLATIONS AND PENALTIES.** The General Manager-Chief
16 Engineer of the Waste Management Department reserves the right to deny entrance to an
17 individual for an appropriate time span when said individual is deemed to pose a safety risk
18 and/or is disruptive to the normal workflow of the County disposal site or transfer station
19 operations. A letter of notification specifying the dates of restriction and the locations will be
20 mailed to the individual and on hand at the gate fee booth.

21 It shall be unlawful for any person to violate any provision of this Ordinance. Any
22 person violating any provision of this Ordinance may be deemed guilty of an infraction or
23 misdemeanor as hereinafter specified. Such persons shall be deemed guilty of a separate
24 offense for each and every day or portion thereof during which any violation of any of the
25 provisions of this Ordinance is committed or continued. Any person so convicted shall be:
26 (1) guilty of an infraction offense and punished by a fine not exceeding One Hundred dollars

1 (\$100.00) for a first violation; (2) guilty of an infraction offense and punished by a fine not
2 exceeding Two Hundred dollars (\$200.00) for a second violation. The third and any
3 additional violations shall constitute a misdemeanor offense and shall be punishable by a fine
4 not exceeding Five Hundred dollars (\$500.00).

5 Notwithstanding the above, a first offense may be charged and prosecuted as a
6 misdemeanor. Payment of any penalty herein shall not relieve a person from the responsibility
7 for correcting the violation.

8 **Section 10. SEVERABILITY.** If any provision, clause, sentence or paragraph of
9 this Ordinance (including its appendices) or the application thereof to any person or
10 circumstances shall be held invalid, such invalidity shall not affect the other provisions or
11 applications of the provisions of this Ordinance (and its appendices) which can be given effect
12 without the invalid provision or application, and to this end, the provisions of this Ordinance
13 (and its appendices) are hereby declared to be severable.

14 **SECTION 2:**

15 This ordinance shall take effect thirty (30) days after the date of adoption.

RESIDENTIAL SELF-HAUL PERMIT CARDS
For Riverside County Waste Management Department
Effective July1, 2007**

The Self-Haul Permit card shall be necessary for admittance to the following rural landfills:

Mecca II Landfill

Oasis Landfill

RESIDENTIAL CARD REGULATIONS

Authority: Riverside County Ordinance No. 657 requires that, "Every tenant, occupier, operator, or owner of a residence...shall not less than once a week, cause to be removed all solid waste created, produced or brought upon the property to an approved disposal facility."

- 1) **Number of Uses** - The Residential Card will allow up to fifty-two (52) uses of the site with Standard Loads.
- 2) **Expiration Date** - The expiration date for all cards will be the last day of the fiscal year, June 30th. In addition, each month any unused punches for that month will expire on the last day of that month.
- 3) **No Refunds** - There will be no refunds at the end of the fiscal year (June 30) on partially used cards.
- 4) **Standard Load** - The maximum load allowed access to the landfill with one use of the Residential Card will be four hundred (400) pounds. If the Gate Services Assistant judges a load to be over this Standard Load limit, two or more punches will be made to the card.
- 5) **Cost** - The Residential Card will be priced at fifteen dollars (\$15.00) per month.
- 6) **Payment Options – Cards may be purchased:**

Period	Cost in Dollars	Number of Punches (i.e. 400 lb. loads)
Monthly	\$15.00	4
Bi-monthly	\$30.00	8
Annually:		
Advance Sale June Discount	\$150.00	52
Regular Sale July Purchase	\$160.00	52
Multiple Months After July 31	\$15 x no. of months	4 x no. of months

- 7) **Lost Cards** - Lost cards are to be reported immediately. The customer will not be responsible for unauthorized use of a card after if it is reported lost to the Waste Management business office located at 14310 Frederick Street, Moreno Valley, CA 92553. The telephone number is (951) 486-3200.
- 8) **Maximum Load** – Mecca Landfill will not accept loads greater than 1 ton.
- 9) **Restrictions on Use of Card** - Household hazardous waste, loads with more than four (4) tires, other hard-to-handle waste, or commercial business waste will **not** be accepted on this card. Cards may only be used by the resident who paid for the card.
- 10) **Alternative County Gate Fee Site Usage** – When a customer has a need to dispose of trash on a day when both of the above landfills are closed, the customer may take that trash to a scaled County disposal site and use the Self-Haul Permit card there.

**APPENDIX C TO ORDINANCE NO. 779.8
RURAL SITE ACCESS -- COMMERCIAL PERMIT CARDS
