**BACKGROUND:** The Riverside County Office on Aging identifies Transportation as being a priority in their 2005-2009 "Strength in Aging" Strategic Plan. There is a need to address the need for alternative, supportive transportation system for our aging population.

The forum will be directed at local policy makers, transportation providers and other stakeholders. It will focus on gaps and barriers, innovative transportation programs and the need for a more coordinated service delivery system in relation to the transportation needs of seniors and adults with disabilities.

We would like to use First District Community Improvement Funds to support the combined efforts of The Office on Aging and the Advisory Council on Aging.
