

**SUBMITTAL TO THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

953A

FROM: TLMA - Transportation Dept.

SUBMITTAL DATE:
April 30, 2007

SUBJECT: Joint Use Agreement with the Southern California Edison Company for the Relocation of Power Poles Associated with the Construction of Road Improvements on 68th Street from Sumner Avenue to Cleveland Avenue in the Eastvale Area

RECOMMENDED MOTION: That the Board approve the "Joint Use Agreement" with the Southern California Edison Company to provide for the relocation of electrical facilities on 68th Street in the Eastvale area, and authorize the Chairman of the Board to execute the agreement on behalf of the County of Riverside.

BACKGROUND: The developer of Tract 30931, Centex Homes, is preparing for the construction of improvements on 68th Street from Sumner Avenue to Cleveland Avenue in the Eastvale area of Riverside County. The construction of the improvements requires that existing Edison Company poles and its other facilities be relocated due to conflict with the planned improvements.

The Honorable Board of Supervisors

RE: Joint Use Agreement with the Southern California Edison Company for the Relocation of Power Poles Associated with the Construction of Road Improvements on 68th Street from Sumner Avenue to Cleveland Avenue in the Eastvale Area

April 30, 2007

Page 2 of 2

The conflicting Edison Company facilities will be relocated from within Edison easements onto County right of way. The Edison Company currently has prior property rights with respect to the current location of its 66kV facilities, and those facilities are planned to be relocated onto County right of way, the Edison Company requires that their superior rights be perpetuated by execution of the attached Joint Use Agreement.

The execution of the agreement perpetuates the superior property right of the Edison Company in the event of a future public works project that may require additional relocation of the poles, in which case the County would assume the relocation costs.

The Transportation Department has verified that the Edison Company has prior property rights with respect to all Edison Company facilities to be relocated from the Edison Company's easement to the Franchise position.

The Transportation Department has reviewed the agreement, including the attached legal description and plat, and recommends it for approval in order to facilitate the construction of the road widening improvements.

There are no direct costs associated with the execution of the Joint Use Agreement.

The agreement has been reviewed and approved by County Counsel.
