

The Honorable Board of Supervisors

RE: Construction of Sidewalk and Associated Improvements, East Side of Columbia Street, Whittier Avenue to 335 Feet Northerly and East Side of Girard Street, Stetson Avenue to 385 Feet Southerly, Hemet area and Construction of Asphalt Concrete Walkway, West Side of Wood Road, 150 Foot North of Van Buren Boulevard to John F. Kennedy Drive, Woodcrest area.

June 11, 2007

Page 2 of 2

BACKGROUND: By Minute Order dated March 20, 2007 (agenda item 3.23) the Board authorized the Clerk of the Board to advertise for the construction of sidewalk and associated improvements on the East side of Columbia Street, from Whittier Avenue to 300 feet northerly, and on the East Side of Girard Street, from Stetson Avenue to 385 feet Southerly, in the Valle Vista area of Riverside County. The planned Columbia Street sidewalk will serve Ramona Elementary School and the Girard Street sidewalk will connect to an existing sidewalk in order to provide a continuous pathway for high school pedestrians.

Due to an impending funding deadline, the Transportation Department added to the scope of work by Addendum the project to construct Asphalt Concrete Walkway on the west side of Wood Road from approximately 150 feet north of Van Buren Boulevard to John F. Kennedy Drive, in the Woodcrest area.

Bids for the project were opened in the office of the Director of Transportation at 2:00 pm, Wednesday, May 2, 2007. Five bids were received. The lowest and best bid was submitted by Elite Bobcat Services, Inc. in the amount of \$275,880.00. The bid is \$100,815.00 (26.76%) less than the Engineer's Estimate. The contractor is qualified.

The proposal form for the Wood Road improvements, as issued by Addendum, contained a discrepancy in the designated unit of measurement for Bid Item no. 38 "Asphalt Concrete Walkway". The proposal form mistakenly designated that Asphalt Concrete Walkway is to be measured by the Square Feet, but the designated quantity was actually measured in terms of Lineal Feet, which was the intended unit of measure. Because of this discrepancy, the quantity that is included in the proposal and the submitted contract is sufficient to construct only one-quarter of the 4 foot wide walkway. Both types of unit of measure can be used, but the most appropriate correction in this case is to issue a contract change order to increase the quantity of bid item no. 38. The cost for the quantity increase is estimated at \$67,080, based on the unit price bid. In order to provide timely approval and Change Order negotiation flexibility, this submittal requests authorization for the Director of Transportation to execute the Change Order pertaining to this correction in an amount not to exceed \$75,000. This construction cost was anticipated, and sufficient funding is therefore available in the project budget for the anticipated cost of the Change Order.

Project Nos. B6-0470, B6-0471 and B6-0469
