The Honorable Board of Supervisors

RE: Amendment No. 1 to the On-Call Land Surveying Services Agreement with the firm of
Inland Aerial Surveys, Inc.

December 27, 2007

Page 2 of 2

BACKGROUND: The Transportation Department needs additional aerial mapping/photogrammetry support services to assist in the delivery of the necessary road improvement projects identified and funded in the Transportation Improvement Program (TIP). In addition to the currently identified and funded projects in the TIP, new projects continue to surface. The growth occurring in Riverside County continues to strain our road system and safety, and additional capacity improvements must be provided.

The objective is to maintain the same level of quality in surveying services that County staff provides in the most cost effective manner possible.

Inland Aerial Surveys, Inc. has provided survey services for the County of Riverside and within the first five months of FY 07/08 has used 37% of the funds allocated. It is anticipated that the number of TIP projects will significantly increase. In order to handle the significant increase of TIP projects, this amendment would increase the annual contract maximum to \$250,000 for FY 07/08, as well as subsequent years of this multi-year agreement. This will allow Inland Aerial Surveys, Inc. to furnish specific project-related tasks in support of County staff in conjunction with the delivery of approved and planned TIP projects.

The additional required funding for these services will come from the respective related project funds. All associated funds have been incorporated in the FY 07/08 Budget and are fully reimbursable by the related projects. There is no Net County Cost associated with these services.

County Counsel has approved Amendment No. 1 as to legal form.
