

992  
**SUBMITTAL TO THE BOARD OF SUPERVISORS  
 COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

**FROM:** Stanley Sniff, Sheriff-Coroner-PA

**SUBMITTAL DATE:**  
 2/11/08

**SUBJECT:** Approval of GeoSpatial Technologies (GST) as a Provider for CrimeMap and Mobile Mapping Software Licenses, and Annual Software Maintenance.

**RECOMMENDED MOTION:** Move that the Board of Supervisors authorize the County Purchasing Agent to purchase CrimeMap and Mobile Mapping Software Licenses, and Annual Software Maintenance from GeoSpatial Technologies at a cost not to exceed \$50,000 annually, through December 31, 2012, without securing competitive bids, in accordance with Ordinance 459.4.

**BACKGROUND:** The Sheriff's Department has purchased CrimeMap and Mobile Mapping Software Licenses, and annual software maintenance from GeoSpatial Technologies for many years. GST software is used by the Sheriff's Crime Analysis Unit, Dispatch, Gang Task Force, Emergency Response Teams and Technical Services Bureau. The CrimeMap application has unique programming which allows Crime Analysts to compare and connect crimes with criminals. GST Mapper assists personnel in responding to incident locations in a timely manner, and provides aerial, parcel, beat and reporting district information. It also provides the same street database used by County Fire.

Departmental Budget

Maps and information generated by this software application are used daily throughout the Sheriff's Department to assist personnel to more efficiently respond to matters of public safety.

Annual maintenance includes telephone and e-mail support, on-site response for critical system failures, software fixes and upgrades, corrective maintenance and more.

**Price Reasonableness:**

Testing of a similar product has shown GST software to be less expensive to purchase and maintain than the other application. GST offers the same discounts to the Sheriff's Department as to County Fire (1/29/08, 3.27): 20% off on annual maintenance, software customization and enhancement; 50% discount on system implementation and training programs.

Date: November 29, 2007  
From: Jill Watler, Technical Services Bureau /Agency: Sheriff's Dept  
To: Board of Supervisors  
Via: Purchasing Agent  
Subject: Sole Source Procurement; Request for

The below information is provided in support of my Department requesting approval for a sole source. Outside of a duly declared emergency, the time to develop a statement of work or specifications is not in itself justification for sole source.

**Supply/Service being requested:** Crime Map and Mobile Mapping Software Licenses and Existing Maintenance

**Supplier being requested:** GeoSpatial Technologies (CRIMEMAP) (GST MAPPER)

**Alternative suppliers that can or might be able to provide supply/service:** Omega Group (Crime View)

**Extent of market search conducted:**

There are two companies who provide a similar product. Sheriff Department Research concluded that the GST product was superior over the Omega Group and the product was more cost effective.

**Unique features of the supply/service being requested from this supplier, which no alternative supplier can provide:**

The CrimeMap application has very user friendly tools and programming unique to this application which allows the analyst to compare and contract crimes with criminals. GST has also continued to provide application support even though the current year maintenance cost had not been renewed.

Sheriff along with County Fire uses GST Mapper to arrive at the incident location in a timely manner. The Officer, Dispatcher and SERT have the ability to type in an address that routes to a location showing Aerial, Parcel, Beat and Reporting District Information. As well as sharing the same street database as County Fire.

**Reasons why my department requires these unique features and what benefit will accrue to the county:**

Maps and information generated by this software application are used daily in Crime Analysis, Patrol and Dispatch to assist deputies in responding to matters of public safety

more efficiently. Both Crime Map and GST Mapper were created based on our departments needs. The need to continue maintenance and purchase additional licenses is a need as the department grows.

**Price Reasonableness:**

GST annual maintenance and support services for products: GST CrimeMap Site License \$12,600, GST CrimeMap \$500 per unit, GST Mapper MDC \$120 per unit. GST Editor \$240 and GST GeoFile Generator \$3,200.

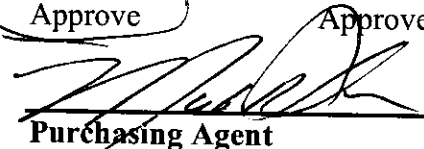

Testing of a similar product has shown GST software to be less expensive to purchase and maintain than the other application. GST offers the same discounts to the Sheriff's Department as to County Fire and all local government agencies: 20% off on annual maintenance, software customization and enhancement; 50% discount on system implementation and training programs.

**Does moving forward on this product or service further obligate the county to future similar contractual arrangements?** Yes. Software maintenance will be required to protect the county's investment in the licenses purchased.
