The Honorable Board of Supervisors

RE: Construction of Metal Beam Guard Railing, Shoulder Widening and Associated Improvements, Gilman Springs Road from 524 Feet Northwest of Sublette Road West to Sublette Road East in the San Jacinto Area, and Road Rehabilitation on Redlands Boulevard, Moreno Valley City Limits to San Timoteo Canyon Road, Moreno Valley area.

February 15, 2008

Page 2 of 2

BACKGROUND: The Transportation Improvement Program provides for the construction of the subject improvements. The submitted plans and specifications have been approved as to form by County Counsel. Environmental clearance is complete.

The metal beam guard railing project on Gilman Springs Road is being funded substantially from Federal Hazard Elimination Safety funds for which the Transportation Department successfully competed. The project is expected to improve roadway safety within the project limits by providing a paved shoulder and metal beam guard rail, which is a warranted improvement.

The road rehabilitation work on Redland Boulevard is necessary due to deteriorated pavement conditions.

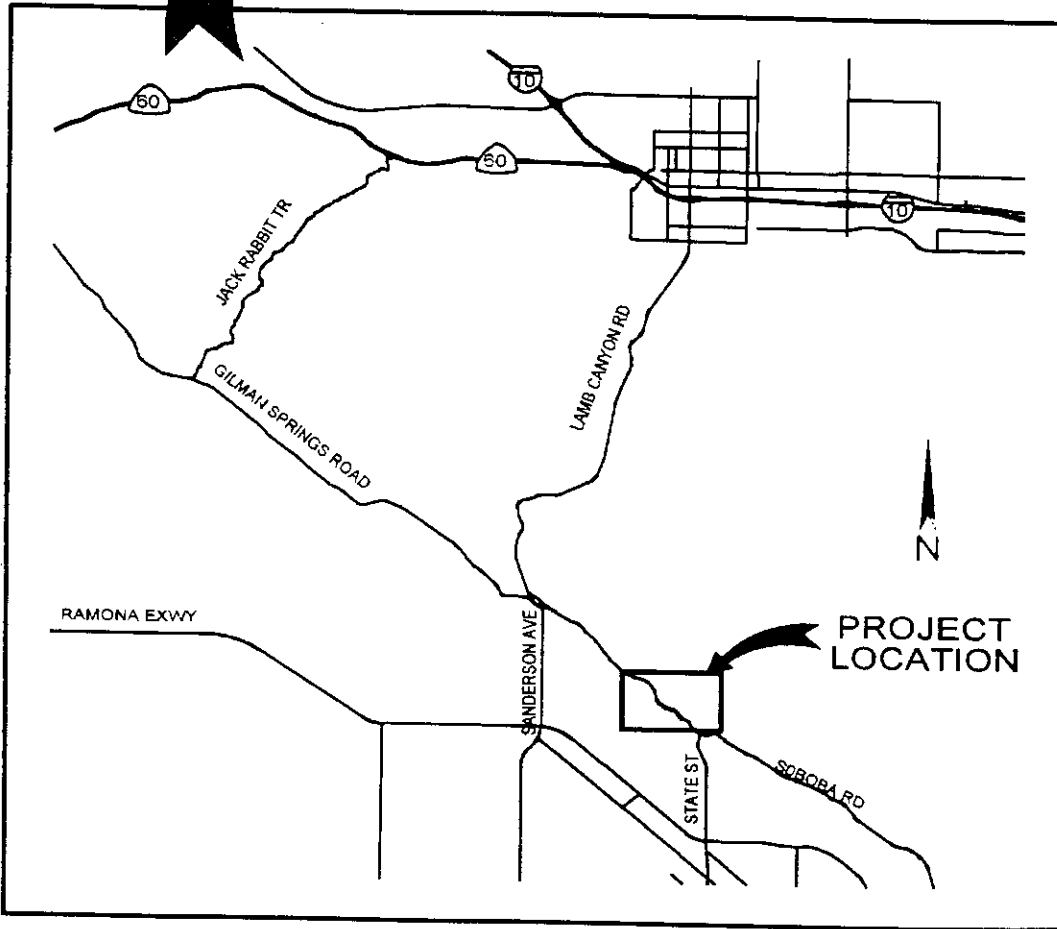

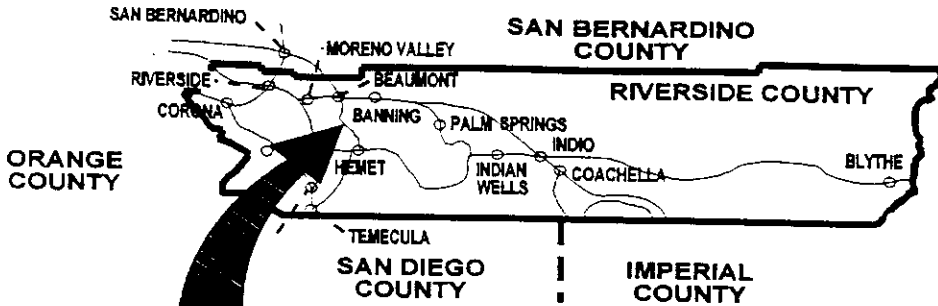

Project Nos B6-0576 and B0-0736.
