The work on Bubbling Wells Road will include the construction of a sidewalk and an access ramp. The sidewalk will tie into the existing sidewalk adjacent to Bubbling Wells Elementary school. Removal or relocation of landscaping, shrubs, and fencing will be required to accommodate the proposed improvements.

This project is partially funded with SB 821 funds. The SB 821 money was awarded, to the County, after successfully competing with other applicant projects.

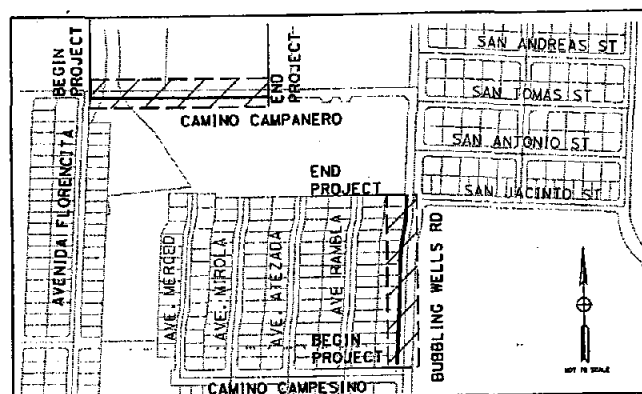

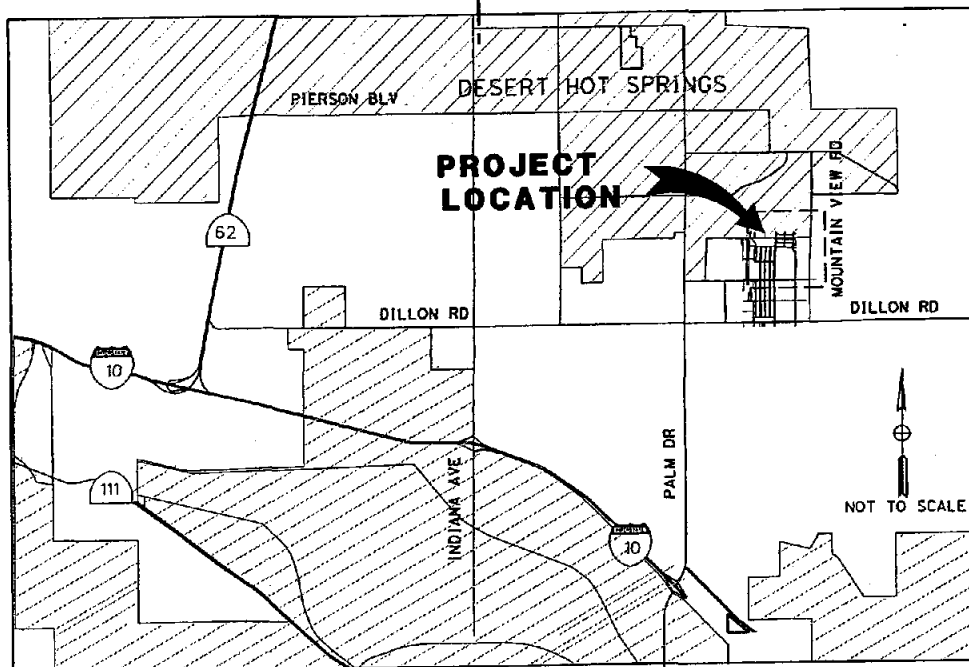

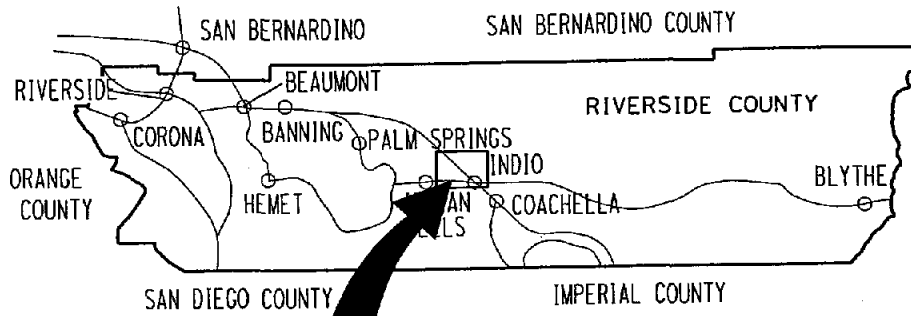

These construction improvements will increase safety for pedestrians adjacent to the Bubbling Wells Elementary school.

The submitted plans and specifications have been approved as to form by County Counsel.

Environmental clearance is complete.
