BACKGROUND: (Continued)

The existing water service to the Ben Clark Training Center (BCTC) Facility is currently in the process of being upgraded to maintain the immediate and future needs of the east end of the training site. This proposed project would supply new water service into the west end of the facility and tie into the current east end water service providing a loop water system. This extension would make the entire Ben Clark site capable of handling any new expansion projects that may require water services.

Facilities Management has selected Albert A. Webb and Associates from the pre-qualified list for the design of the extension of the Mariposa waterline into the Ben Clark Training Center. Albert A. Webb and Associates was selected to provide these services for the project due to their experience and successful completion of similar projects for the County. County Counsel has approved the agreement as to legal form.

All associated costs for this agreement will be fully funded with Capital Improvement Program - General Fund Designation Funds. Thus, no additional Net County Cost will be incurred as a result of this agreement.
