BACKGROUND: (Continued)

The existing entrance/exit into the Ben Clark Training Center (BCTC) does not have a traffic signal from Van Buren Boulevard into the training site via Plummer Road. Anyone exiting the facility from Plummer Road cannot make a left turn onto Van Buren Boulevard because of the volume and speed of traffic both ways; therefore, only a right turn can be made. This proposed project would extend the existing Mariposa Road into the BCTC site, which would allow for anyone entering and exiting the facility a safer route from Barton Road, which is a less busy street. Barton Road intersects Van Buren Boulevard and has a traffic signal at the intersection. The extension of Mariposa would make it the primary entrance/exit into the facility.

Facilities Management has selected Albert A. Webb and Associates from the pre-qualified list for the design of the Mariposa road extension into the Ben Clark Training Center. Albert A. Webb and Associates was selected to provide these services for the project due to their experience and successful completion of similar projects for the County. County Counsel has approved the agreement as to legal form.

All associated costs pertaining to this agreement will be fully funded through Capital Improvement Program – General Fund Designation Funds. Thus, no additional Net County Cost will be incurred as a result of this agreement.
