The Honorable Board of Supervisors

RE: Reimbursement Agreement with the Western Municipal Water District For The Construction of Waterline Facilities, as part of the County's Project to Construct the River Road Bridge over the Santa Ana River, Norco Area.

July 7, 2008

Page 2 of 2

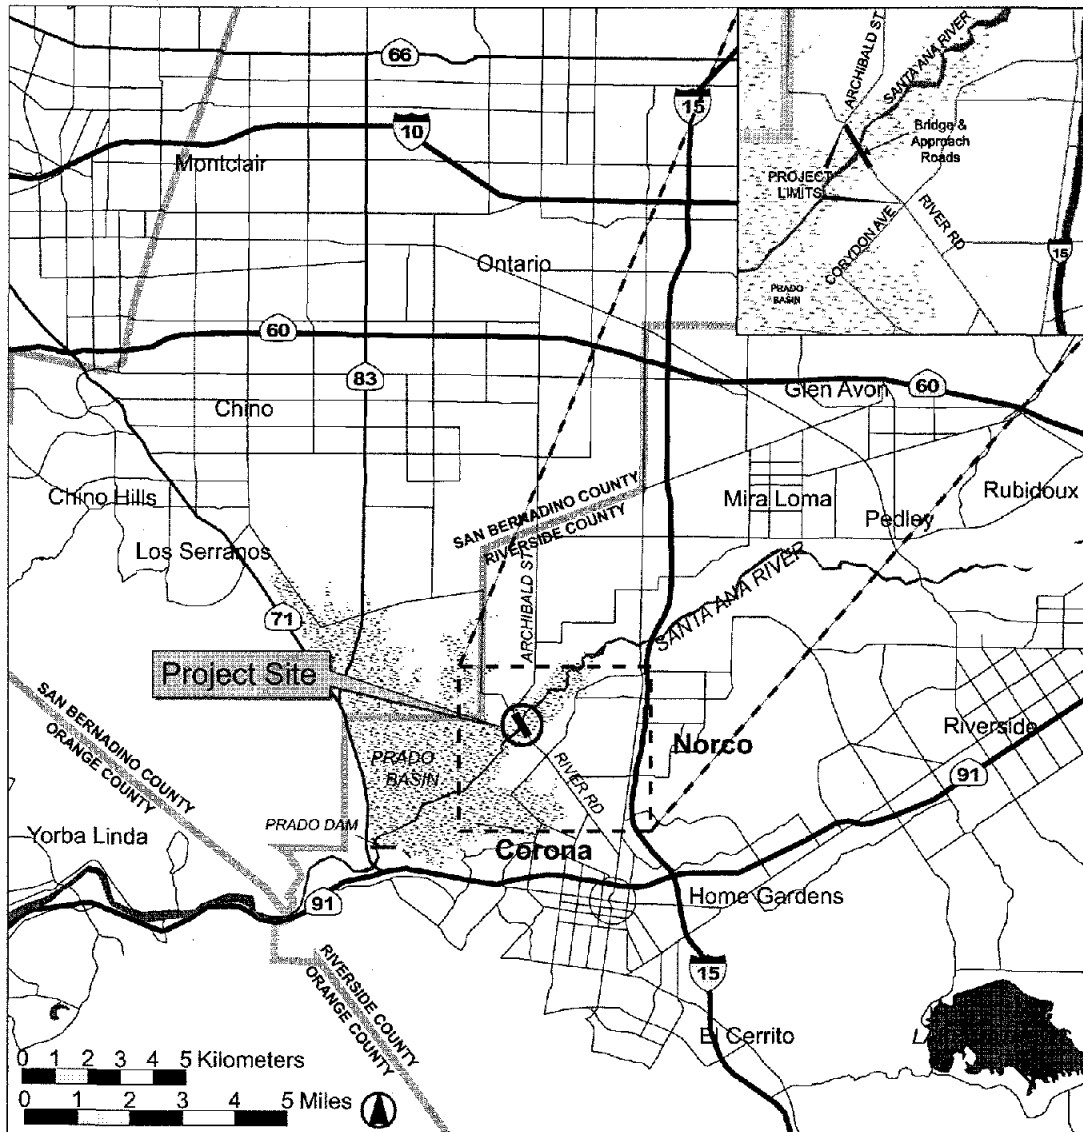

The Western Municipal Water District intends to install three 20 inch water pipelines for future use into the new bridge structure, and has requested the County to include the work in its construction contract.

The bid documents have been prepared to include an alternate bid schedule for the construction of the Water District's facilities. If the Water District approves the award of the alternate bid schedule as bid by the apparent low bidder, all costs for the Water District's facilities will be borne by the Western Municipal Water District.

The Western Municipal Water District has executed the submitted agreement, which has been reviewed and approved by County Counsel.

Project no. A7-0298.
