BACKGROUND:

With approval of the California Environmental Quality Act (CEQA) Final Environmental Impact Report (FEIR), it is now possible to proceed with site acquisition and development for the Public Safety Enterprise Communications Project Site (PSEC) was approved. The FEIR addresses mitigation requirements and unavoidable environmental impacts stemming from the construction and operation of the proposed public safety project. This Board submittal is for a PSEC site in the Lake Riverside area. The Phase I report for said subject property indicates no contamination. Government Code 65402 General Plan conformance notices have been circulated to the Riverside County Planning Department. Notice of Intention to Purchase was approved by the Board on June 24, 2008.

The Lake Riverside site (Exhibit I) is a new microwave and radio location offering improved coverage, better reliability and good life cycle costs in an area where topography restricts coverage and isolation adds to emergency response times. The Lake Riverside site involves purchase of an easement of 5,000 square feet of Assessor's Parcel Number 580-140-014, including access for vehicles and power supplies for a total of \$169,500.

This resolution has been reviewed and approved by County Counsel as to legal form.

FINANCIAL DATA:

The following summarizes the funding necessary to acquire Assessor's Parcel Number 580-140-014:

Purchase Price:	\$150,000
Security Fence & Landscape Treatment	\$ 12,000
Title and Escrow Costs:	<u>\$ 7,500</u>
TOTAL	\$169,500

All costs associated with these acquisitions are fully funded through the PSEC budget for FY 2008/09; thus, no additional net county cost will be incurred as a result of these transactions.
