and best total bid was submitted by All American Asphalt of Corona, CA in the amount of \$337,000. The total bid price, submitted by All American Asphalt, is 10.0% more than the Engineer's Estimate.

Roadway resurfacing is needed due to deteriorated pavement conditions. The limits of this Washington Street project are from Tava Lane to Hermosa Drive at the Riverside City boundary limits.

This project also provides for needed traffic safety improvements including flashing beacons, radar feedback signs, road signs, striping, road markings, pavement markers and street name signs with larger letters.

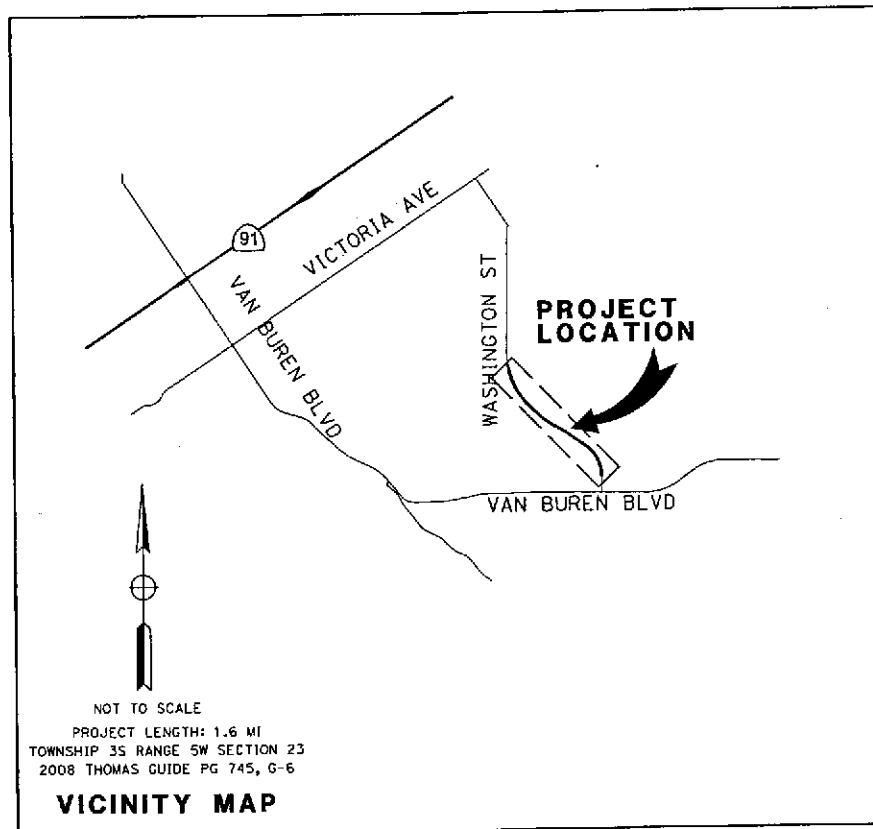

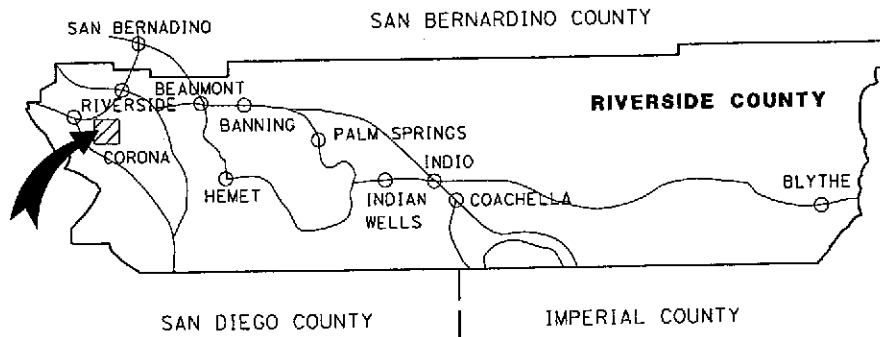

Two flashing beacons will warn traffic of cross traffic at intersections. Also, two solar powered radar feedback signs will be installed on Washington Street. The radar signs will display traffic speed to make drivers aware of their speed.

The contractor is qualified.

The Contractor has executed the contract and has provided bonds which meet the requirements of the contract.
