ACCEPTANCE OF HIDTA GRANT PROGRAM FUNDS FOR MULTIPLE COUNTY INITIATIVES (RMTF, INCH & INCA) BR 09-060

Page 2

For over seventeen years, Riverside County has participated in the HIDTA program, which fosters cooperation among law enforcement agencies in their efforts to eliminate drug trafficking locally and nationally. The LA-HIDTA is comprised of the Los Angeles, Orange, Riverside, and San Bernardino counties. The Office of National Drug Control Policy and LA-HIDTA have confirmed that Riverside County's allocation for this grant award cycle is \$1,712,249.

However, the Sheriff's Department has now received grant award documents in the amount of \$736,267, only 43% of the budgeted County projects. According to Special Conditions of the grant award, the remaining funding cannot be made available until enacted through public law.

Based on this initial award, grant funds will be distributed among the County project initiatives in the following manner:

Regional Methamphetamine Task Force (RMTF) / Riverside County \$103,747
Regional Methamphetamine Task Force (RMTF) / San Bernardino County \$236,408
Inland Narcotics Clearing House (INCH) \$195,111
Inland Crackdown Allied Task Force (INCA) \$201,001

No County match is required.

Operating with a focus throughout the entire LA-HIDTA region, the primary mission of the RMTF is to target major methamphetamine production, distribution, and Drug Trafficking Organizations (DTO) by investigating, disrupting, and arresting person(s) and organizations involved in illicit sales and trafficking of methamphetamine thereby improving the quality of life for all citizens, both regionally and nationally.

Statistics indicate that methamphetamine availability remains a constant concern and narcotic traffickers typically use well-established highways and pipelines to smuggle, ship and move methamphetamine and other illicit narcotics. In an effort to combat the availability of these narcotics, RMTF, using grant funds, will continue the deployment of highway interdiction team, comprised of two narcotic detecting canines and their respective handlers. These teams will be used to identify, disrupt, and arrest DTOs that regularly use these highways and trafficking routes to further their criminal enterprise(s).

INCH will also aid the task forces by providing connectivity to the Statewide Integrated Narcotics Systems (SINS). Additionally, INCH will assist by providing necessary case support and serve as a clearing house for the dissemination of narcotics related intelligence.

INCA, established in 1996, will support the efforts of the State Bureau of Narcotic Enforcement (BNE) in enforcing the controlled substance laws of California. The INCA task force is comprised of numerous law agencies within the jurisdiction of the LA-HIDTA. This cooperative effort, coupled with their ability to jointly work with similar Crackdown Task Forces, has proven to be highly effective in the investigation of DTOs within the region.
