BACKGROUND:

The Latino Commission provides alcohol and drug prevention services that include mental health assessments, counseling for children suffering from violence or abuse, women and men experiencing mental health disorders, and adolescent services. There are currently providing services to 137 students that have been diagnosed with the major depression, suicide attempts, self mutilation, sexual abuse, trauma and violent behavior. Unfortunately, the increased demand for services depleted this year's financial resources and the organization is urgently seeking funds to continue their operations until the next fiscal year.

We would like to use Fourth District Community Improvement funds to assist the Latino Commission in assisting our families with much needed counseling services.
