The Honorable Board of Supervisors

RE: Winchester Road (SR-79) from Thompson Road to Domenigoni Parkway Amendment No. 1 to the Cooperative Agreement between the County of Riverside and the State of California Department of Transportation (Caltrans) for the preparation of environmental and design documents.

March 23, 2009

Page 2 of 2

**BACKGROUND:** To improve traffic circulation and safety, the County of Riverside has proposed to widen SR-79 from two to four lanes from Thompson Road to Domenigoni Parkway. The County has been diligently improving this road in stages, starting with several signals and intersection widening between Hunter and Thompson, and last year we completed a gap widening project between Thompson and Pourroy.

On December 14, 2004 the Board approved a Cooperative Agreement between Caltrans and the County of Riverside which would terminate upon project completion, or June 30, 2009. Project work cannot be completed prior to the termination of the agreement and this amendment extends the *termination date to December 31, 2011*. This has been an extremely challenging project due to the involvement of Federal funds, the environmental process, and the need to acquire substantial right-of-way. Property acquisitions and Environmental approval are currently under way, with construction anticipated for the Spring of 2010 on at least a very significant portion of the remaining improvement (the next phase may likely be from Scott Road to Domenigoni Parkway due to the lesser number of property owners involved in right-of-way acquisition.) A separate future agreement will be necessary for the construction phase of this project.

The terms of the original Cooperative Agreement between Caltrans and the County of Riverside remains the same and outlines each agency's responsibilities for the development of the environmental and design project documents. This agreement is necessary for Caltrans to provide project oversight, quality assurance, including appropriate reviews and approvals of submittals by the County, and to cooperate in timely processing of the project. The cost of project oversight and quality assurance will be borne by the State.
