Fourth District Use of Community Improvement Designation Funds

May 5, 2009

**BACKGROUND:**

The annual Dare to be Aware Youth Conference' objective is to present an accurate picture of mental illness to the youth of Riverside County. The goal is to create and develop partnerships with educators, engage community leaders and government officials. They hope to disseminate anti-stigma information throughout the county by utilizing the media and encouraging the youth participants to share the information with their peers, family and community members. The target populations are middle school and high school students from all the five districts in the county.

We would like to use Fourth District Community Improvement funds to assist in this event.
