The Honorable Board of Supervisors

RE: Construction of pedestrian sidewalk on Acacia Avenue, construction of pedestrian sidewalk and a pedestrian bridge on Mayberry Avenue and associated improvements, East Hemet area.

May 21, 2009

Page 2 of 2

the north side of Mayberry Avenue.

The sidewalk improvements on Acacia Avenue will provide improved pedestrian facilities near the Dartmouth Middle School and the neighboring area. The work in this area includes minor drainage and road improvements.

The existing bridge over Bautista Creek Channel has no sidewalk and the school children are currently forced to walk on a narrow curb on the bridge, less than 2 feet wide, to go to and from Valle Vista Elementary School. The proposed sidewalk and pedestrian bridge, on Mayberry Avenue, will link the existing neighborhood, to the west at Casino Road, to the existing sidewalk in front of Valle Vista Elementary School and provide a safe path of travel to and from school. Additional safety improvements include completely enclosing the pedestrian bridge with chain link fencing.

The projects are partially funded with SB 821 funds for which the County successfully competed.

The submitted plans and specifications have been approved as to form by County Counsel.

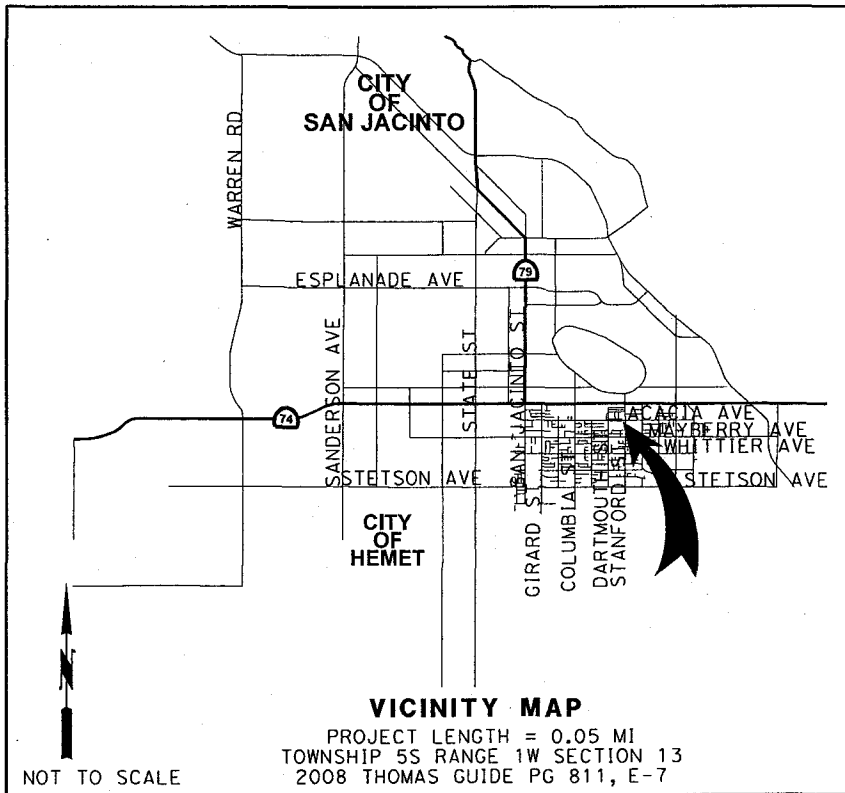

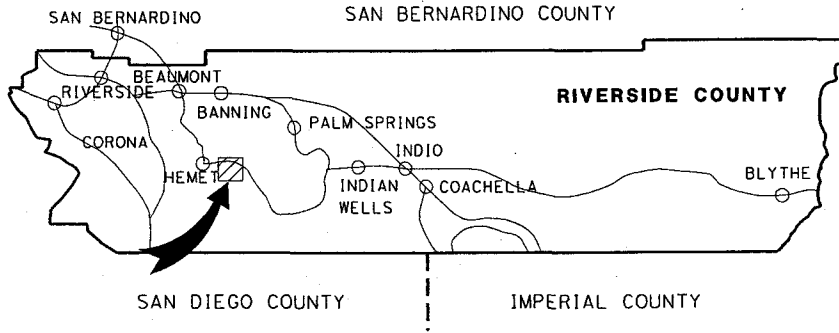

Environmental clearance is complete.
